Proposed Development and Location of the Land:

**Conversion of existing 3 units into 4 self-contained one bedroom residential units.
48 Kingsway Dovercourt Harwich Essex**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT**
PLANNING PERMISSION in accordance with the application form, supporting documents and
plans submitted, subject to the following conditions;

1 COMPLIANCE REQUIRED: COMMENCEMENT TIME LIMIT

CONDITION: The development hereby permitted shall be begun not later the expiration
of three years from the date of this permission.

REASON: To comply with the requirements of Section 91 of the Town and Country
Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase
Act 2004.

NOTE/S FOR CONDITION:

The development needs to commence within the timeframe provided. Failure to comply
with this condition will result in the permission becoming lapsed and unable to be carried
out. If commencement takes place after the time lapses this may result in unlawful works
at risk Enforcement Action proceedings. You should only commence works when all other
conditions requiring agreement prior to commencement have been complied with.

2 APPROVED PLANS & DOCUMENTS

CONDITION: The development hereby permitted shall be carried out in accordance with
the drawings/documents listed below and/or such other drawings/documents as may be
approved by the Local Planning Authority in writing pursuant to other conditions of this
permission or such drawings/documents as may subsequently be approved in writing by
the Local Planning Authority as a non-material amendment following an application in that

regard (except for Listed Building Consents). Such development hereby permitted shall be carried out in accordance with any Phasing Plan approved, or as necessary in accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

The documents titled 'Proposed Window Details' Revision R01 received 6th February 2024, 'Existing and Proposed Block Plans', 'Proposed Elevations', 'Proposed Ground Floor Plan', and the untitled Site Location Plan received 21st December 2023.

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

 - e) Details of any means of access to the site during construction.
 - f) Details of the scheduled timing/phasing of development for the overall construction period.
 - g) Details of measures to control the emission of dust and dirt during construction, and

REASON: To minimise detriment to nearby residential and general amenity by controlling the construction process to achieve the approved development. This condition is required to be agreed prior to the commencement of any development as any construction process, including site preparation, by reason of the location and scale of development may result adverse harm on amenity.

NOTE/S FOR CONDITION:

You are strongly advised to discuss this condition with the Local Planning Authority and if possible/available local residents likely to be affected by this development prior to submission of details.

Highways Informatives:

1: In main urban areas with frequent and extensive public transport, cycling and walking links, the EPOA Parking Standards recommend that a reduced parking standard provision may be applied to residential developments. A reduced parking standard provision level can be applied to this proposal as it is located very close to regular public transport services and public car parking facilities.

2: All work within or affecting the highway is to be laid out and constructed by prior arrangement with and to the requirements and specifications of the Highway Authority; all details shall be agreed before the commencement of works. The applicants should be advised to contact the Development Management Team by email at development.management@essexhighways.org

3: The Highway Authority cannot accept any liability for costs associated with a developer's improvement. This includes design check safety audits, site supervision, commuted sums for maintenance and any potential claims under Part 1 and Part 2 of the Land Compensation Act 1973. To protect the Highway Authority against such compensation claims a cash deposit or bond may be required.

Legal Agreement Informative - Recreational Impact Mitigation

This application is the subject of a legal agreement and this decision should only be read in conjunction with this agreement. The agreement addresses the following issues: mitigation against any recreational impact from residential developments in accordance with Regulation 63 of the Conservation of Habitat and Species Regulations 2017. Please note that any subsequent variation / removal of condition applications (s73 applications) will require a new legal agreement to secure this obligation unless the development has commenced (subject to all necessary condition discharges) and the contribution has already been paid.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.

The attached notes explain the rights of appeal.
