TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 24/01050/FUL

DATE REGISTERED: 24th July 2024

Proposed Development and Location of the Land:

**Planning Application - New self-build dwelling and cart lodge.
Alresford Station Alresford Essex CO7 8AN**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT**
PLANNING PERMISSION in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

1 COMPLIANCE REQUIRED: COMMENCEMENT TIME LIMIT

CONDITION: The development hereby permitted shall be begun not later the expiration of three years from the date of this permission.

REASON: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

NOTE/S FOR CONDITION:

The development needs to commence within the timeframe provided. Failure to comply with this condition will result in the permission becoming lapsed and unable to be carried out. If commencement takes place after the time lapses this may result in unlawful works at risk Enforcement Action proceedings. You should only commence works when all other conditions requiring agreement prior to commencement have been complied with.

2 APPROVED PLANS & DOCUMENTS

CONDITION: The development hereby permitted shall be carried out in accordance with the drawings/documents listed below and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this permission or such drawings/documents as may subsequently be approved in writing by the Local Planning Authority as a non-material amendment following an application in that regard (except for Listed Building Consents). Such development hereby permitted

shall be carried out in accordance with any Phasing Plan approved, or as necessary in accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

Site Plan - Received 12.07.2024

Drawing No. P01 - Proposed Floor Plans - Received 12.07.2024

Drawing No. P02B - Proposed Elevations - Received 24.07.2024

Drawing No. P03B - Proposed Cart Lodge Floor Plan & Elevations - Received 24.07.2024

Drawing No. P04B - Site Layout & Landscaping Plan - Received 12.07.2024

Document P05B - Amended Construction Method Statement - Received 08.08.2024

Drawing No. P07B - Main Drains Plan - Received 24.07.2024

Planning Statement - Received 12.07.2024

Foul Drainage Assessment Form - Received 12.07.2024

Self-Build Declaration Form - Received 25.07.2024

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

3 FURTHER APPROVAL: MITIGATION TO BE AGREED, RAMS

CONDITION: Prior to the commencement of any demolition works to facilitate the erection of the self-build dwelling, detailed proposals addressing the mitigation of the development's impact on protected Essex Habitats Sites shall be submitted to and received written approval from the Local Planning Authority. Such proposals must provide for mitigation in accordance with the joint Habitats Regulations Assessment Essex Coast Recreational Disturbance Avoidance and Mitigation Strategy (RAMS) or

demonstrate mitigation measures of an equivalent effectiveness.

These proposals may require on site or off site mitigation, but in either case must include evidence of the completion of a necessary legal agreement to secure the proposed mitigation and/or contribution towards mitigation. Please note a legal agreement will include legal fees and may require obligations to secure monitoring and associated fees. For any on site mitigation proposals approved, it shall be carried out in full and thereafter shall be maintained as approved.

REASON: In order to safeguard protected wildlife species and their habitats in accordance with the NPPF and Habitats Regulations. Failure to achieve satisfactory mitigation would result in harm by new residents due to the development's impact on protected sites.

NOTE/S FOR CONDITION:

This condition establishes the necessity to ensure the implementation of appropriate mitigation measures due to the impact of the approved development. Such mitigation may be required on-site, off-site, or a combination of both.

Typically, a contribution towards visitor management measures at the protected Habitats Site(s) is the preferred and simplest approach to fulfil the requirements of this condition. To fulfil this requirement, you can contribute funds towards a range of mitigation projects in the protected areas. It is essential to secure this provision through a legal agreement between the Council, Developer/Applicant, and site owners before occupation. If this is the approach to fulfilling this condition you wish to take, you are strongly advised to finalise the legal agreement with the Council before submitting any request to discharge this condition. Failure to conclude the agreement within the discharge of condition application time frame may lead to the refusal to discharge the condition.

Please note if there are other obligations needed for this development, for example to secure monitoring and maintenance of a Biodiversity Net Gain Plan you may wish to combine these together as one agreement.

LEGAL AGREEMENT REQUIRED TO DISCHARGE CONDITION

As per the relevant condition above, this application requires mitigation against recreational Impact in accordance with The Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS) and Regulation 63 of the Conservation of Habitat and Species Regulations 2017. The current RAMS tariff is £163.86 per new dwelling (from the 1st April 2024). To satisfy a RAMS condition and allow a condition to be formally discharged, a completed UU must be submitted with a Discharge of Condition application.

Prior to the submission of the Discharge of Condition application, we can prepare the UU for you (to be reviewed by your solicitor) or we can review a draft UU you have provided (drafted by your solicitor). Both services will incur a charge.

Please see the 'Preparation of a UU' guidance on our website at:
<https://www.tendringdc.gov.uk/content/the-s-106-process>

4 ACTION REQUIRED: RESIDENTIAL TRAVEL PACK PRIOR TO OCCUPATION

CONDITION: Prior to first occupation of the dwelling hereby approved, a Residential Travel Information Pack (travel pack) shall be provided for use of its first occupiers. The travel pack shall be agreed, in writing, by the local planning authority prior to provision

and shall include a minimum of six one day travel vouchers for use with a local transport operator.

REASON: In the interests of reducing the need to travel by car and promoting sustainable development and transport.

Note: Please contact the Travel Plan Team at ECC Highways via email to Travel.PlanTeam@essex.gov.uk to obtain a Residential Travel Information Pack template and the associated day travel vouchers required.

5 ACTION REQUIRED: REFUSE BINS AND COLLECTION AREAS

CONDITION: Prior to occupation of the dwelling hereby approved details for the storage of refuse/recycling bins shall be submitted to and approved in writing by the Local Planning Authority and then retained in perpetuity.

REASON: In the interest of highway safety to ensure that refuse recycling bins do not cause any obstruction or danger on the highway.

NOTE/S FOR CONDITION:

It is an OFFENCE to carry out works within the public highway, which includes a Public Right of Way, without the permission of the ECC Highway Authority. Any conditions which involve work within the limits of the public highway do not give the applicant permission to carry them out. Unless otherwise agreed in writing all works within the public highway shall be carried out by Essex County Council or its agents at the applicant's expense.

6 APPROVAL REQUIRED: LANDSCAPING SCHEME

CONDITION: No development above slab level shall take place until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of hard, soft and boundary treatment landscaping works for the site, which shall include any proposed changes in ground levels.

REASON: In the interests of visual amenity and the character and appearance of the area.

NOTE/S FOR CONDITION:

Slab level normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visually above ground level or seek confirmation from the Local Planning Authority for your development.

Should the landscape works include any new hedgerow, please consider the following planting for a native hedge. Native hedge: 50% hawthorn, 25% blackthorn (but beware - this can spread into adjacent fields), 15% field maple, 2% holly, 2% wild privet, 2% guelder rose, 2% dog rose, 2% buckthorn.

7 COMPLIANCE WITH DETAILS AND TIMESCALE REQUIRED - LANDSCAPING SCHEME

CONDITION: All changes in ground levels, soft/hard landscaping shown on the approved landscaping details shall be carried out in full during the first planting and seeding season (October - March inclusive) following the commencement of the development, or in such other phased arrangement as may be approved, in writing, by the Local Planning Authority up to the first use/first occupation of the development. Any trees, hedges, shrubs or turf identified within the approved landscaping details (both proposed planting and existing) which die, are removed, seriously damaged or seriously diseased, within a period of 10 years of being planted, or in the case of existing planting within a period of 5 years from the commencement of development, shall be replaced in the next planting season with others of similar size and same species unless otherwise agreed in writing by the Local Planning Authority.

REASON: To ensure that the approved landscaping scheme has sufficient time to establish, in the interests of visual amenity and the character and appearance of the area.

8 FURTHER APPROVAL: AGREEMENT OF MATERIALS

CONDITION: No development/works shall be commenced above slab level until precise details of the manufacturer and types and colours of the external facing and roofing materials to be used in construction have been submitted to and approved, in writing, by the Local Planning Authority. Such materials as may be agreed shall be those used in the development and fully applied prior to the first use/occupation.

REASON: To secure an orderly and well-designed finish sympathetic to the character of the existing building(s) and in the interests of visual amenity and the character and appearance of the area.

NOTE/S FOR CONDITION:

Slab level is normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visually above ground level or seek confirmation from the Local Planning Authority for your development.

While this condition does not detail in what form the materials sought shall be detailed to the Local Planning Authority, it is suggested that a plan is submitted with the details to show where the materials will be located and the extent of coverage.

9 OBSCURE GLAZING & REMOVAL OF PD

CONDITION: Notwithstanding the provisions of Article 3, Schedule 2, Part 1 of the Town and Country Planning (General Permitted Development) Order 2015 (or any Order revoking and re-enacting that Order with or without modification), the first floor en-suite window in the south elevation shall be glazed in obscured glass before the development hereby permitted is first occupied/used and shall thereafter be permanently retained in this approved form. The obscured glass shall be designed as equal or higher than Pilkington Textured Glass Level 5 Standard as published January 2010 (as amended).

REASON: To protect the privacy and amenities of the occupiers of neighbouring property.

NOTE FOR CONDITION

Level 5 is also referred to as Privacy Level 5 and this web site may be of use, the Council accepts no responsibility for content.

<https://www.pilkington.com/en-gb/uk/householders/decorative-glazing>

If you are in any doubt as to the level referred, please contact the Local Planning Authority to discuss.

10 SPECIFIC RESTRICTION ON DEVELOPMENT: SELF-BUILD AND CUSTOM-BUILD

CONDITION: The dwelling approved by this permission shall be occupied only by persons who have built or commissioned the building of the dwelling/s for their own occupation and use as a self-build project in accordance with the Self-build and Custom Housebuilding Act 2015 for a minimum of 24 hours from first occupation by said persons.

Furthermore, the following scheduled actions shall be undertaken.

- o Prior to commencement of the development, details of the (a) individuals, (b) associations of individuals, or (c) persons working with or for individuals or associations of individuals, both building the development and who are to occupy the dwelling/s if different shall be confirmed in writing to the local planning authority. Should there be any changes to these details during construction, these shall be updated in writing to the local planning authority.
- o On first occupation details of the first occupier of the dwelling shall be confirmed in writing to the local planning authority and subsequently the Local Planning Authority shall be informed of if and when that occupier changes within the first year of occupation.

REASON: The dwelling approved by this permission shall be occupied only by persons who have built or commissioned the building of the dwelling/s for their own occupation and use as a self-build project in accordance with the Self-build and Custom Housebuilding Act 2015 (as amended) and to accord with provisions of the Local Plan and NPPF.

11 SUSTAINABLE ENERGY EFFICIENCY MEASURES

CONDITION: No development shall commence above slab level until a scheme for the provision and implementation of water, energy and resource efficiency measures for the lifetime of the development shall be submitted to and approved, in writing, by the Local Planning Authority. The scheme should include as a minimum the following:-

- Agreement of carbon level;
- Agreement of provisions to ensure the development is zero carbon ready;
- Agreement of heating of each dwelling/building; and
- Agreement of scheme for waste reduction

The scheme shall be fully implemented prior to the first occupancy of the development unless otherwise agreed in writing by the Local Planning Authority. The scheme shall be constructed and the measures provided and made available for use as may be agreed and thereafter shall be maintained.

REASON: To enhance the sustainability of the development through better use of water, energy and resources reduce harm to the environment and result in wider public benefit in accordance with the NPPF.

NOTE/S FOR CONDITION:

Slab level is normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visually above ground level or seek confirmation from the Local Planning Authority for your development.

The greatest threat to our planet is the belief that someone else will save it and also forgetting that small acts, when multiplied by millions of people, can transform the world. Developments will provide buildings/homes to thousands/millions of people over their lifetime. A well designed sustainable development in the beginning will restrict the contribution each person makes to that threat and help enable them to transform the world.

12 CONTAMINATED LAND

CONDITION: Notwithstanding the details submitted with this application, no development shall commence other than that required to carry out additional necessary investigation which in this case includes demolition, site clearance, removal of underground tanks and old structures until an investigation and risk assessment has been submitted to and approved in writing by the local planning authority. The risk assessment shall assess the nature and extent of any contamination on the site, whether or not it originates on the site. The investigation and risk assessment must be undertaken by competent persons and a written report of the findings must be produced. The report of the findings must include:

- (i) a survey of extent, scale and nature of contamination;
- (ii) an assessment of the potential risks to:
 - Human health,
 - Properly (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes,
 - Adjoining land,
 - Groundwaters and surface waters,
 - Ecological systems
 - Archaeological sites and ancient monuments;
- (iii) an appraisal of remedial options, and proposal of the preferred option(s).

REASON - To ensure that any risks (to future users of the land and neighbouring land and to controlled waters, property and ecological systems) arising from any land contamination are minimised and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors.

DATED: 11th October 2024

SIGNED:

John Pateman-Gee
Head of Planning and Building Control

INFORMATIVES:

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

In accordance with the Council's general duty to conserve and enhance biodiversity, you are strongly encouraged to improve the biodiversity of the application site through appropriate additional planting and wildlife friendly features. Suggested enhancements could include: <https://www.rhs.org.uk/wildlife/in-the-garden/encourage-wildlife-to-your-garden>

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.

The attached notes explain the rights of appeal.

NOTES FOR GUIDANCE

WHEN PLANNING PERMISSION IS REFUSED OR GRANTED SUBJECT TO CONDITIONS

APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If you want to appeal, then you must do so within the set time frame as outlined below:
 - a. If this is a decision to refuse planning permission for a householder application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Householder Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - b. If this is a decision to refuse planning permission for a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Planning Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - c. If you want to appeal against your local planning authority's decision on a development which is not caught by a. and b. above then you must do so within **6 months** of the date of this notice. A **Planning Appeal Form** is required, available online <https://www.gov.uk/planning-inspectorate>
- Appeals must be made using the relevant form (as detailed above) which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate>. **Please note, only the applicant possesses the right of appeal.**
- Please ensure that you have read the latest procedural guidance for appeals prior to submitting an appeal. The latest guidance can be found at [Procedural Guide: Planning appeals – England - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/procedural-guide-planning-appeals)
- The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted permission for the proposed development or could not have granted it without the conditions imposed having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. [Further details are on GOV.UK.](https://www.gov.uk/government/publications/planning-appeals)

ENFORCEMENT

- If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of this notice.

- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months (12 weeks in the case of a householder or minor commercial appeal) of the date of this notice, whichever period expires earlier.
