3, 26	There is a school, albeit just outside of the ward and in Blue House that would be much closer (and was used before the last ward changes). I think that consideration should be given to having two polling stations - many voters in 2019 stated that they used to go to St Clare's School, which of course was before the then boundary changes. I don't think there is another suitable premises in the ward, so either a temporary station would need to be set up or St Clare's shared with Bluehouse, which I believe has 2 stations. Given that part of the problem today is actually getting people to vote, making the journey easier for them is paramount I feel. Not everyone has a car, Cann Hall School is on a very UNRELIABLE bus route so not exactly in the best place for those in the south of the ward to be	Citr Gina Placey	AF	CAE + add CAF to	Cann Hall	Cann Hall Primary School		Cann Hall	Brightling sea	Brightlingsea	Clacton	4766	Yes	Yes	Suggested that there should be an option to the south of the ward for another polling station. A school in Bluehouse Ward has been recommended which is outside of Cann Hall ward.		There is a natural advantage in creating two separate polling stations in Cann Hall ward with the common boundary being the middle of St John's Road. However, it has not been possible to identify a suitable polling station venue within Cann Hall Ward south of St John's Road. Consideration has been given to the Fire station on St John's Road, the retirement complex off Cloes Lane and open space between Bromley Close and Hamstead Avenue. All of these potential sites were problematic for their own reasons. We will continue to monitor the situation and should a suitable venue be identified, the Returning Officer will be recommended to utilise it.

	Consideration ought to be given to active travel options and accessibility for polling places rather than assuming electors will use their motorcars.	Not to be published	AL	CAH	Coppins (Victory)	The Brotherhood Community Hall		Coppins	Harwich	Harwich	Clacton	1833	Yes	Yes	Entrance to venue is close to a main road. Look at alternative entrances to alleviate congestion waiting outside and address potential safety issues.	The pedestrian entrance to the Brotherhood Hall is set back from the highway pavement. It is fenced and therefore there is a limit on the number of people who can queue outside the polling station. However, that is unlikely to occur and there is still the opportunity to queue on the footpath. There is also an accessible entrance from the car park which other electors can use. For these reasons we are not proposing to make any changes at this point in time. We will continue to monitor the position.

27, 35	There really isn't anywhere within the boundaries of the new area that has a public building such as a school, library, church etc that could be used. The only location that could be an option is the communal lounge on the Warde Chase housing estate owned by Anchor Housing Association which is located at the top of Goudings Avenue in Walton. It is accessible, one level, has toilets, can hold c.70-100 people, has kitchen facilities and on-street parking. Whether Anchor would be interested in working in partnership on that I have no idea but worth asking. I can't think of anywhere else within the boundary that would work. 18	I have never understood the logic of having a polling station at the Fellowship Hall. The Access is awful, parking is limited, and our residents who live opposite the St James Church Hall Polling Station in Tower Road, have to vote in the Fellowship Hall. St James Church Hall is large, has disabled access, is in the centre of the ward, has good parking around it, and there is a certain logic in having the St James Ward Polling Station in St James Church. The two Polling Stations are a ten minute walk from each other, and I personally see very little point in having two polling stations, when there is enough space in the St James Church to accommodate all our voters. Tower Road, Jackson Road, Penfold Road, Edith Road, Marine Parade West and Alton Road are the adjacent roads to St James Church Hall, but at the moment are voting in the Fellowship Hall. It would make sense to have one polling Station for St James Ward in St James Church in Tower Road.
