TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 24/01536/FUL

DATE REGISTERED: 27th November 2024

Proposed Development and Location of the Land:

Planning Application - Change of use from C2 (Residential institution) to C3 (Dwelling house).

92 Lee Road Dovercourt Harwich Essex

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

1 COMPLIANCE REQUIRED: COMMENCEMENT TIME LIMIT

CONDITION: The development hereby permitted shall be begun not later the expiration of three years from the date of this permission.

REASON: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

NOTE/S FOR CONDITION:

The development needs to commence within the timeframe provided. Failure to comply with this condition will result in the permission becoming lapsed and unable to be carried out. If commencement takes place after the time lapses this may result in unlawful works at risk Enforcement Action proceedings. You should only commence works when all other conditions requiring agreement prior to commencement have been complied with.

2 APPROVED PLANS & DOCUMENTS

CONDITION: The development hereby permitted shall be carried out in accordance with the drawings/documents listed below and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this permission or such drawings/documents as may subsequently be approved in writing by the Local Planning Authority as a non-material amendment following an application in that regard (except for Listed Building Consents). Such development hereby permitted shall be carried out in accordance with any Phasing Plan approved, or as necessary in

accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

The approved red line plan drawing is Ordnance Survey site plan 1:1250 received 27 November 2024
Block Plan 1:500

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

3 FURTHER APPROVAL: MITIGATION TO BE AGREED - RAMS

CONDITION: The hereby approved development shall not be first occupied/used until detailed proposals addressing the mitigation of the development's impact on protected Essex Habitats Sites have been submitted to and received written approval from the Local Planning Authority. Such proposals must provide and secure mitigation in accordance with the joint Habitats Regulations Assessment Essex Coast Recreational Disturbance Avoidance and Mitigation Strategy (RAMS) or demonstrate mitigation measures of an equivalent effectiveness to the satisfactory of the Local Planning Authority. For any on site mitigation proposals approved, it shall be carried out in full prior to first occupation, and thereafter shall be maintained as approved.

REASON: In order to safeguard protected wildlife species and their habitats in accordance with the NPPF and Habitats Regulations. Failure to achieve satisfactory mitigation would result in harm by new residents due to the development's impact on protected sites meaning the development must mitigate the burden of development regardless of scale of impact.

NOTE/S FOR CONDITION:

This condition establishes the necessity to ensure the implementation of appropriate mitigation measures due to the impact of the approved development. Such mitigation may be required on-site, off-site, or a combination of both.

Typically, a contribution towards visitor management measures at the protected Habitats Site(s) may be the preferred and simplest approach to fulfil the requirements of this condition. To fulfil this requirement, you can contribute funds towards a range of mitigation projects in the protected areas. It is essential to secure this provision through a legal agreement between the District Council, Developer/Applicant, and site owners before occupation. If this is the approach to fulfilling this condition you wish to take, you are strongly advised to finalise the legal agreement with the District Council before submitting any request to discharge this condition. Should this be the route chosen, failure to conclude the agreement within the discharge of condition application timeframe may lead to the refusal to discharge the condition. Please note if there are other obligations needed for this development, for example to secure monitoring and maintenance of a Biodiversity Net Gain Plan, you may wish to combine these together as one agreement. Furthermore, please also note a legal agreement will include legal fees and may require obligations to secure monitoring and associated fees.
