

Officer Report

17 February 2025

The proposal to remove dead wood and to reduce the height of the oak that is in decline is necessary on safety grounds and may well help to prolong the safe useful life expectancy of the tree .

The removal of the dead part of the Holly is reasonable and the reduction in size and trimming of the remaining healthy section of the tree is also acceptable .

The third tree is an oak that has been previously pollarded and the proposal to repeat this pruning operation is acceptable .

Decision - Approval
