

Officer Report

14 April 2025

The works sent out on the application relate to the routine cyclical reduction of the crowns of medium sized trees that are situated in a contained garden forming of part of the residential curtilage of North House.

The proposed works are reasonable and necessary in order to contain the trees at a size and scale proportionate to their location. The works will not adversely affect the health or condition of the trees nor diminish the contribution that they make to the character and appearance of the conservation area.

Decision - No objection
