

Officer Report

8 May 2025

The tree is a mature healthy specimen situated in a prominent location and making a positive contribution to the current appearance of the conservation area .

The tree has been previously reduced and a reduction of its crown as proposed is unlikely to have an adverse impact on the health or condition of the tree.

Decision - Approval

Conditions - The works permitted by this consent shall be carried out between the beginning of June and the end of September and no other time whatsoever.

Reason - to avoid excessive bleeding from pruning wounds.
