

Summary sheet

Location: Brighton Road – Holland on Sea

A map is included to highlight the area photographed, to depict current restrictions/schemes in place and how additions would appear.

A separate accident statistic plan also highlights if there have been any recorded accidents via Essex County Councils Traffweb site in the relevant road/street, although in some cases this would not necessarily relate to the request made, due to the area captured.

Slight accidents are indicated by a green symbol, serious accidents by blue and fatal accidents by a red symbol.

Officer Recommendation

A supported request for the installation of parking control measures to prevent junction parking and parking opposite a shared driveway has been made.

Whilst we cannot condone junction parking, standard measures at the site would not cater for the issues reported as parking occurs beyond the typical Highway Code guidance of 10 metres.

Extended junction protection would be required, and whilst the request is supported by the affected households, any changes may attract opposition from those who are currently parked at the site, other local residents.

It is disappointing that suitable measures were not considered and funded externally when the shared access road was constructed.
