

Clive

I hope this finds you well!

I believe that Tony Monger, a fellow Little Bromley Parish councillor, contacted about this recently, but there has been much angst in the village following the felling of a great many mature trees by the new owner of Hunyani, Ardleigh Road, CO11 2QA.

I said I would ask you if it is possible to obtain TPOs for some of the trees that remain. There are still several reasonably mature oaks, particularly those butting Ardleigh Road which form part of an "arboreal tunnel".

I think it was understood by most people that there would be some trees felled as the site had outline consent for two dwellings, but he has removed far more than was strictly necessary, and as the attached photo probably fails to show, the look and feel of that area is now fundamentally changed!

Any advice you can offer would be much appreciated!

With all best wishes,

Neil Stock
