COUNCIL

31 MARCH 2026

REFERENCE FROM CABINET

A.2 ADOPTION OF THE ANNUAL CAPITAL AND TREASURY STRATEGY FOR 2026/27 (INCLUDING PRUDENTIAL AND TREASURY INDICATORS)
(Report prepared by Ian Ford*)*

PART 1 – KEY INFORMATION

PURPOSE OF THE REPORT
The Council is asked to consider the recommendation submitted to it by the Cabinet in respect of the approval of a Capital and Treasury Strategy for 2026/27.

EXECUTIVE SUMMARY
At its meeting held on 20 March 2026 (minute 127 refers), the Cabinet had considered a report of the report of the Corporate Finance and Governance Portfolio Holder (A.9) which had sought Cabinet's agreement of the Annual Capital and Treasury Strategy for 2026/27 (including Prudential and Treasury Indicators) for submission to this meeting of Full Council. Cabinet had been reminded that the Local Government Act 2003 and supporting regulations required the Council to set out its treasury strategy for borrowing, and to prepare an Annual Investment Strategy (as required by Investment Guidance subsequent to that Act) that set out the Council's policies for managing its investments and for giving priority to the security and liquidity of those investments, "having regard" to the Chartered Institute of Public Finance and Accountancy's (CIPFA) Prudential Code and the CIPFA Treasury Management Code of Practice. Revised editions of both documents had come into force in 2023/24. It had been reported that the Capital Strategy continued to be combined with the Treasury Strategy into one document, which was required to be updated / approved annually. The proposed Annual Capital and Treasury Strategy for 2026/27 had been set out in Appendix A2 to the Portfolio Holder's report (A.9) and it continued to reflect the various changes set out in the latest Codes mentioned above. Members of the Cabinet had been informed that the Capital Strategy element of the combined document covered the various elements surrounding capital investment decisions and the key criteria that investment decisions should be considered against. The Treasury Strategy element of the combined document covered the various elements that satisfied the requirements of the various codes that governed the borrowing and investment activities of the Council and had been prepared in the light of advice received from the Council's Treasury advisors and reflected the latest codes and guidance**.** Cabinet had been made aware that Prudential and Treasury indicators had been included as an Annexe to the combined strategy and had therefore been included within Appendix A2. Members of the Cabinet had been advised that, under the Prudential Code, the Council had freedom over capital expenditure if it was prudent, affordable and sustainable. The

Prudential Indicators either measured the expected activity or introduced limits upon the activity and reflected the underlying capital appraisal systems and enabled the Council to demonstrate that it was complying with the requirements of the Prudential Code.

Cabinet had been reassured that the Council's investments would be undertaken in accordance with its Treasury Management Practices (TMPs).

Cabinet had been informed that, following on from comments made last year, the Strategy now acknowledged potential obligations that would be placed on the Council due to the emerging legislation around Local Government Reorganisation (LGR).

Cabinet had, inter alia, ***"****RESOLVED that the Annual Capital and Treasury Strategy for 2026/27 (including Prudential and Treasury Indicators) be recommended to Full Council for its formal approval."*

A copy of the published Corporate Finance & Governance Portfolio Holder's report (and its appendix) to the Cabinet meeting held on 20 March 2026 is attached to this report.

RECOMMENDATIONS

That Council, having considered this reference report from Cabinet, approves and adopts the annual Capital and Treasury Strategy for 2026/27 (including Prudential and Treasury Indicators), as set out in Appendix A hereto.

MONITORING OFFICER'S ADVICE

Nothing further to add to the contents of the report.

BACKGROUND PAPERS FOR THE DECISION

Published Decisions of the meeting of the Cabinet held on 20 March 2026.

APPENDICES

APPENDIX A = Annual Capital and Treasury Strategy 2026/27 (including Prudential and Treasury Indicators) for adoption

APPENDIX B = Published A.9 Report of the Corporate Finance & Governance Portfolio Holder for the meeting of the Cabinet held on 20 March 2026

Tendring District Council

ANNUAL CAPITAL AND TREASURY STRATEGY 2026/27

March 2026

PART 1 – CAPITAL STRATEGY 2026/27 to 2028/29

1. Introduction

SECTION A - Achieving Outcomes / Delivering Against Priorities

2. Corporate Priorities and Links to Other Key Strategies
3. Roles and Responsibilities in Respect of the Capital Strategy and the Formulation and Monitoring of the Capital Programme

SECTION B - Capital Investment and Sources of Funding

4. Capital Investment Considerations
5. Sources of Funding

Part 1 Annex 1 – Quick Reference Guide – Information Expected to be Included in Capital Investment Decisions Where Relevant

Part 1 Annex 2 – General Fund and Housing Revenue Account Capital Programmes 2026/27 to 2027/28

PART 2 – TREASURY STRATEGY FOR 2026/27

1. Introduction
2. Treasury Limits for 2026/27 to 2027/28
3. Prudential and Treasury Indicators for 2026/27 to 2027/28
4. Current Portfolio Position
5. Borrowing Requirement
6. Economic Position
7. Interest Rates
8. Borrowing strategy
   - 8.1 External v internal borrowing
   - 8.2 Gross and Net Debt Positions
   - 8.3 Policy on borrowing in advance of need
9. Debt Rescheduling
10. Annual Investment Strategy
    - 10.1 Investment Policy
    - 10.2 Creditworthiness Policy
    - 10.3 Credit Limits
    - 10.4 Country Limits
    - 10.5 Investment Strategy
    - 10.6 Allocation of Investment returns between GF and HRA.
    - 10.7 End of year investment report

Part 2 Annex 1 – Proposed Prudential Indicators 2025/26 revised, 2026/27 and forecasts for 2027/28 to 2028/29

Part 2 Annex 2 – Specified and non-specified investments

PART 1 – CAPITAL STRATEGY

INTRODUCTION

The Capital Strategy is an overarching document that sets out the Council's approach to Capital Investment and how it seeks to deliver value for money against the following underlying key principle, which is subject to review by the Council's External Auditor each year:

1. **Financial Sustainability -** How the Council manages its resources to ensure it can continue to deliver its services.

2. **Governance -** How the Council ensures that it makes informed decisions and properly manages its risks.

3. **Improving economy, efficiency and effectiveness -** How the Council uses information about its costs and performance to improve the way it manages and delivers its services

Against this backdrop, the Capital Strategy is divided into two sections:

Section A provides an introduction and sets out the context for the Capital Strategy. It sets out how the plan links to corporate priorities and shows how they link to other key resource strategies and the related roles and responsibilities of members and officers.

Section B covers the framework within which capital financing decisions are considered and provides background to the funding sources available to meet the costs of capital projects that are included within the Capital Programme.

The Council's cost pressure and investment plans along with the Capital Programme forms the basis of the Council's rolling plan of investment in assets. The Capital Programme spans a number of years and contains a mix of individual schemes.

Investment can include expenditure on:

- Infrastructure such as open spaces, coast protection
- New build
- Enhancement of buildings through renovation or remodelling;
- Major plant, equipment and vehicles;
- Capital contributions to other organisations enabling them to invest in assets that contributes to the delivery of the Council's priorities.

The Capital Programme is distinct from the Council's revenue budget which funds day-to-day services, but they are both linked and are managed together.

There is a strong link with the Treasury Management Strategy set out in PART 2 that provides a framework for the borrowing and lending activities of the Council.

The Council has set a de-minimus level of £10,000, below which expenditure is not classed as capital expenditure, but is charged instead to the revenue account.

SECTION A - ACHIEVING OUTCOMES/DELIVERING AGAINST PRIORITIES

CORPORATE PRIORITIES

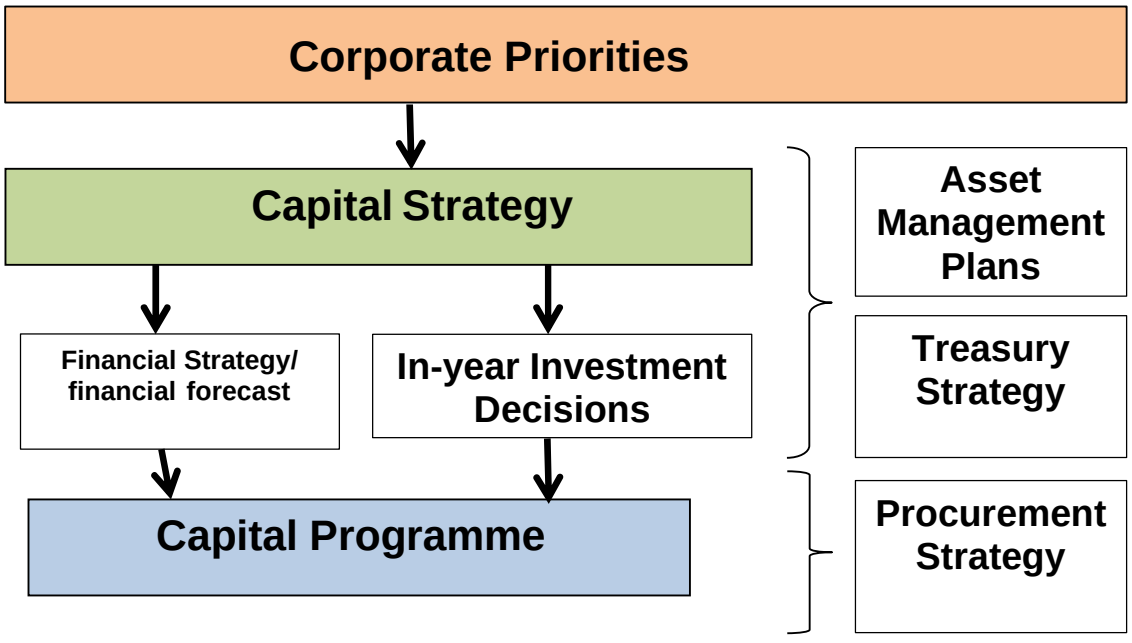
The Capital Strategy is subject to ongoing review and has a key role in supporting the delivery of the Council's Corporate Priorities

The Capital Strategy aims to set out the arrangements and processes in place to manage capital resources, the relationship with the Council's other key resource strategies and the practical/sustainable outcomes of those arrangements and processes by:

1. Setting out how schemes are evaluated and prioritised within the resources available.
2. Ensuring that any investment decision is prudent, sustainable and affordable in accordance with the prudential code and therefore represents value for money.
3. Setting out the performance processes in place to ensure that projects are delivered on time and within budget.
4. Ensuring that expected outcomes are delivered and lessons learnt from previous investment decisions.

LINKS TO OTHER KEY STRATEGIES

The ability of the Council to undertake capital investment to deliver its corporate objectives will be influenced or have direct links to a number of strategies, with the key 'links' set out below:



The above sets out the strategies/processes that are more closely aligned to the capital investment decision but are by no means exhaustive. Although subject to changes over the life of this Strategy, other key strategies and

policies may also need to be reflected in the investment decision such as those associated with workforce/staff capacity and ICT delivery. Decision- making must therefore reflect these requirements where relevant/necessary.

In respect of ICT within the Council, associated strategies or requirements set out how the Council intends to use technology to support service delivery and transform the way it delivers its services. ICT is therefore recognised as a key enabler in supporting capital investment and delivering sustainable outcomes.

The **financial forecast** plays a pivotal role in developing and delivering capital investment. The financial forecast not only determines the financial resources available to fund capital investment, both in terms of the initial investment and any revenue consequences of the capital investment itself, it also provides a key element within the framework for considering and prioritising capital projects. It is however recognised that to remain flexible to take advantage of investment opportunities that may arise during the year, decisions may be required in line with the Council's Financial Procedure Rules. The financial forecast is reported to Cabinet each quarter, which allows this flexibility. To ensure consistency, such decisions should also follow the same requirements set out within the Capital Strategy.

The Council's cost pressure and investment plans also forms a key element within the framework above as it forms a further link between the Corporate Priorities and the Financial Strategy and complements the development of the forecast and prioritised projects that are included within the Capital Programme.

The Treasury Strategy is also highlighted above as a key influence as it sets out the Council's overall approach to debt and borrowing. This approach along with affordability form part of the investment decisions that are brought together via the financial forecast process on a rolling basis through the year.

Other significant influences include the Local Development Framework (LDF) which sets out the Council's vision for change and new growth in the Tendring District in the long term which could present the Council with investment opportunities for consideration alongside other investment options.

ROLES AND RESPONSIBILITIES IN RESPECT OF THE CAPITAL STRATEGY AND THE FORMULATION AND MONITORING OF THE CAPITAL PROGRAMME

Management Team – As the most senior officer team of the Council the Management Team approves the Capital /Treasury Strategy for submission to Cabinet and having regard to the Council's priorities, recommends projects for inclusion in the Capital Programme in consultation with Portfolio Holders/ Cabinet (via the financial forecast process). Management Team also considers all significant investment decisions via a project initiation / development process prior to formal reporting to Members, especially those associated with in-year investment decisions.

Departments support Management Team in the above process through the development and investigation of investments opportunities and submitting reports / project initiation and development documentation in support of the associated capital projects.

Cabinet (including Portfolio Holders acting within approved delegations) – The Cabinet recommends the *multi-year* capital programme to Council. The Cabinet and the Finance and Governance Portfolio Holder can, within the limits set by the Council's Financial Procedure Rules, approve supplementary estimates or approve virements between schemes during the year as part of separate investment decisions. The Cabinet is required to approve the Capital / Treasury Strategy each year.

Council – Approves a multi-year Capital Programme as part of the budget setting process in February each year and approves the Capital / Treasury Strategy in March each year or as soon as possible thereafter.

Subject to the limits set out in the Council's Financial Procedure rules, Council may be required to approve supplementary estimates to increase the costs of approved schemes or add new schemes over and above amounts that individually or on aggregation are over and above those amounts ordinarily agreed by Cabinet as part of in-year investment decisions.

CONSULTATION

The views of the local community and stakeholders are an important element in developing the priorities for the Council and identifying capital investment opportunities. This can be achieved in a number of ways depending on the specific investment that is considered, which should be complemented by wider consultation exercises such as those associated with the development of corporate priorities and the forecast/corporate investment plans where necessary.

In addition to the above, Departments are expected to review the need to undertake consultation and the scale of that consultation, as appropriate, as part of the investment decision-making process.

MONITORING OF THE CAPITAL INVESTMENT/CAPITAL PROGRAMME

In terms of performance and monitoring the delivery of capital investment, this is primarily achieved through the existing and comprehensive financial processes such as the term financial forecast and budget setting process, outturn review and the quarterly financial performance reporting. In respect of the quarterly financial performance reports, an update on the delivery of projects and the position against the budget is included, which is made available to both Cabinet and the relevant Overview and Scrutiny Committee during the year. Some capital projects may also form part of the Council's separate Performance Monitoring process that is also reported to Members during the

year. *Forward looking prudential indicators are also included within the above regular financial performance reports.*

Where capital investment is material, the scheme or project may be subject to review by internal audit which would be at the discretion of the Internal Audit Manager as part of the annual Internal Audit Plan or if required by other key stakeholders.

The above is *supported by an Officer 'Project Board'* and also where relevant, by separate Member 'boards' or equivalent, which form an important element of the monitoring process for schemes such as the Levelling Up Fund and Community Regeneration Partnership projects.

SECTION B – CAPITAL INVESTMENT AND SOURCES OF FUNDING

CAPITAL INVESTMENT CONSIDERATIONS

The Council's capital investments are made in accordance with the Prudential Code, which aims to ensure that the capital investment plans of local authorities are affordable, prudent and sustainable, which should also include where necessary a prioritisation and appraisal process. Under the Code the Council is free to determine the amount it borrows to finance capital investment.

All of the Council's capital investment is managed in accordance with the requirements of the Prudential Code. The prioritisation of capital investment is directly linked to the financial forecast and/or in-year budget amendment processes as previously explained, which is complemented by the Council's cost pressure and investment plans, all of which will be undertaken in an open and transparent manner.

Schemes that are agreed but not funded as part of the financial forecast process will be considered as part of a prioritised list within wider cost pressure and investment plans and be a 'live' schedule of investment opportunities against which further investment opportunities should be considered during the year.

A number of obligations will be placed on the Council and its Statutory Officers as part of the Government's on-going Local Government Reorganisation reforms for Greater Essex. These are anticipated to be based on emerging legislation such as the Structural Changes Order (SCO) and existing legislation such as S24 of the Local Government and Public Involvement in Health Act 2007, which will include new statutory duties on existing authorities being abolished by the orders, which will include the control of disposals, contracts and reserves. In practice, they are complementary and cover the abolition of the existing local government areas, wind up and dissolve the existing county and district councils, transfer district and county council functions, establish one or more new local government areas and unitary authority(ies) and providing for the names of each. There will be a number of related key financial

considerations that will remain under review during the period of the proposed two-year plan. As LGR for Greater Essex proceeds further, information on these requirements for Tendring District Council will be brought into future treasury management reports as necessary.

The Council faces ongoing significant financial challenges over the period of this Capital Strategy due to changes in Government Funding over recent years, inflationary pressures and potential uncertainty introduced by local government reforms. *The latest financial forecast for 2026/27 to 2028/29 reflects annual deficits over the remaining period of the plan, which is supported by the Forecast Risk Fund. To support the on-going delivery of efficiencies and transformation that will in turn support the delivery of the forecast, the following key principles should continue to be a key consideration of capital investment decisions:*

Design schemes/projects to limit as far as possible any negative impact on the Council's on-going revenue budget.
Promote capital investment which allows either invest to save outcomes or generates a revenue and/or capital return and/or generates additional external grant or core funding (e.g. Business Rates) whilst clearly setting out how it contributes to the Council's Corporate Priorities.
Foster effective working relationships with potential funders/partners.
Carefully consider value for money and efficiency of projects and associated outcomes.
Project risk is fully explored, and mitigating actions identified and taken as necessary.
Ensure appropriate project management tools and documentation are used and that project timescales are adequately matched to the capacity to deliver the project, both internally and externally (where internal, this needs to include services such as Legal, Finance and HR).
Responsibility for the delivery of the project is clearly defined and understood.
How the proposed investment contributes to the Council's commitment to be carbon neutral by 2050.

In addition to the above, it will also be important to consider the impact of local government reforms through devolution and local government reorganisation as necessary.

Although not always necessarily subject to formal reporting, as part of the Council's project management processes, Departments are expected to evidence the outcome from any investment undertaken against the key criteria set out within this Capital Strategy to inform future investment decisions with

high level information being available within the usual performance/budget monitoring reports.

To promote consistency, a quick reference guide for detailed information that is expected to form part of any investment decisions is set out as **Annex 1**.

As highlighted above, the Council's cost pressure and investment plans form part of the overall governance framework in terms of linking corporate priorities and strategies to investment priorities. This framework takes into account a number of key priority 'drivers' such as financial viability / sustainability, non-financial consequences such as reputation / health and safety, the outcome from external assessment / regulatory reviews along with being outcome driven.

Impact Assessments

Impact assessments may be required depending on the specific capital investment decisions being considered. Therefore, as part of the Council's project management processes, Departments are expected to consider whether it is necessary to complete an impact assessment based on the Council's usual processes and documentation at the time a decision is made.

SOURCES OF FUNDING

Capital investment will have to be undertaken within the Council's limited resources and challenging financial environment.

In limited cases the cost of capital investment is supported by external grants/ contributions. Any other capital investment the Council wishes to make has to be funded from its own resources or by borrowing (the revenue cost being met entirely by the Council). The Council's Financial Strategy / financial forecast includes consideration of a *multi-year* forecast, taking into account the revenue implications of capital investment plans and the resources available to fund capital investment. The level of capital investment will be constrained by the available resources identified via the financial forecast process including revenue contributions or the ability to attract external funding and the generation of capital receipts. Any decision to invest in capital projects will need to match the available resources against criteria set out above, including how it meets corporate priorities within wider cost pressure and investment plans. The process also includes consideration of, where appropriate, whether to divest any commercial investments, in accordance with the requirements of the updated Prudential and Treasury Management Codes.

In planning any capital investment to contribute towards the achievement of the Council's priorities, the following resources are available:

a) **Revenue Funding (Including Reserves)** – This continues to be limited each year given the challenging financial environment and on-going government grant reductions. This funding stream will need to be considered within the overall financial planning processes each year,

including that for the HRA, which operates under a self-financing environment where changes in Government Policy have limited the revenue contributions available to support capital investment.

b) **Capital grants/contributions** – These have contributed significantly to past and current capital projects and many aspects of the Council's and its partners' objectives can only be met if this funding source continues to be pursued. The delivery of the Council's priorities and commitments continue to be supported by successful grant applications. Section 106 money flowing from the planning process is also a significant source of external funding.

c) **General Fund Capital Receipts** – It is acknowledged that the Council's current property/land holdings are not of significant high value or volume. Nevertheless, the Council recognises this important funding source and continually reviews its assets as part of separate asset management / investment plans which provide the context to consider opportunities to dispose of any assets that are surplus to requirements and/or not contributing to the delivery of the Council's priorities or where they provide alternative investment opportunities.

d) **Borrowing within the Prudential Framework (Prudential Borrowing)** – The Council has the freedom to borrow to finance its capital expenditure provided it can demonstrate the prudence of the investment and its affordability and sustainability. During 2020/21 the rules governing borrowing from the PWLB were amended such that from 25 November 2020 no borrowing from the PWLB is allowed if an authority has purchased assets for yield in its capital programme for the following three years. Neither the General Fund nor the Housing Revenue Account capital programmes for 2025/26 to 2027/28 involve any such schemes. This means the Council is still able to access PWLB funding at preferential rates if it is prudent, affordable and sustainable.

CAPITAL STRATEGY CONCLUSIONS

The Capital Strategy sets out the high-level arrangements and processes to ensure that capital investment is managed within the Council's overall financial framework. It aims to ensure that its limited resources are applied consistently and effectively towards delivering the priorities of the Council. It links together the capital expenditure implications of various plans and strategies.

PART 1 - ANNEX 1

QUICK REFERENCE GUIDE – Information Expected to be Included in Capital Investment Decisions Where Relevant

Formal Investment Considerations/Decisions/Business Cases
Link to priorities (including commitment to be carbon neutral by 2050) and/or 'safeguarding' of a Council Asset and what are the measurable benefits of the planned investment
Return on Investment/Net Present Value
Whole Life Costing/Revenue Consequences
Payback Periods
Key risks and how they will be managed
Alternative Options/Opportunity Costs
Sustainability
Financial Resources Available/Funding Options
Impact assessment where relevant
Capacity/Deliverability
Other considerations/important information to discuss/share with relevant internal department(s) and/or for inclusion in the formal decision making process if significant
Cash Flow Forecasts
VAT Arrangements/Implications
Insurance issues
Risk Management implications
Procurement processes
Any potential impact/influence of devolution and local government organisation.

PART 2 – TREASURY STRATEGY

1. Introduction

The Local Government Act 2003 (the Act) and supporting regulations require the Council to 'have regard to' the CIPFA Prudential Code and the CIPFA Treasury Management Code of Practice to set Prudential and Treasury Indicators for the next three years to ensure that the Council's capital investment plans are affordable, prudent and sustainable. Both CIPFA Codes were revised in December 2021 and adopted by the Council in 2023/24. The revised codes had the following implications:

- A requirement to adopt a new debt liability benchmark treasury indicator
- They clarify what CIPFA expects a local authority to borrow for and what they do not view as appropriate, however it is important to highlight that none of Tendring's borrowing falls within the inappropriate category
- A requirement to address environmental, social and governance (ESG) considerations in the Capital Strategy and in Treasury Management Practice 1 (TMP1).
- Implementation of a policy to review commercial property, with a view to divest where appropriate.
- Create new Investment Practices to manage risks associated with non-treasury investment (for Tendring this is the single Investment Property held) that are similar to the current TMPs
- Expansion of the knowledge and skills register for individuals involved in treasury management, proportionate to the size and complexity of the work involved.
- All investments and investment income to be split between:
    - those held for treasury management arising from cash flows
    - those held for delivery of services such as housing, regeneration and local infrastructure – the Council has none in this category at present
    - those held for commercial return – i.e. investment property

The Act requires the Council to set out its treasury strategy for borrowing and to prepare an Annual Investment Strategy (as required by Investment Guidance issued subsequent to the Act) which sets out the Council's policies for managing its investments and for giving priority to the security and liquidity of those investments.

The Council's risk appetite is low, and it takes a risk-averse approach to Treasury Management, with the security and liquidity of the investment the prime concern, and the budget for income from investments being formulated on this basis. The Annual Strategy for 2026/27 is based on this risk-averse approach continuing.

For a number of years, the Council has engaged the services of treasury advisors to provide its officers with advice on treasury management issues. The current advisors are Link Asset Services, Treasury solutions. However, the

final decision and responsibility for the actions taken sits with the Council's own officers after considering that advice.

The details of the delegations and responsibilities for treasury management are contained within the Council's Constitution as follows: -

- Part 3 – delegated powers – The Executive / Finance and Governance Portfolio Holder
- Part 5 – Financial Procedure Rules

2. Treasury Limits for 2026/27 to 2027/28

It is a statutory duty under Section 3 of the Act and supporting regulations for the Council to determine and keep under review how much it can afford to borrow. The amount so determined is termed the "Affordable Borrowing Limit". In England and Wales, the Authorised Limit represents the legislative limit specified in the Act.

The Council must have regard to the Prudential Code when setting the Authorised Limit of external debt, which essentially requires it to ensure that total capital investment remains within sustainable limits and, in particular, that the impact upon its future council tax and council rent levels is 'acceptable'. Capital investment must be considered in the light of the overall strategy and resources available, with decisions made with sufficient regard to the long-term financing implications and potential risks.

Whilst termed an "Affordable Borrowing Limit", the capital plans to be considered for funding must include both external borrowing and other forms of liability, such as credit arrangements. The Authorised Limit is to be set, on a rolling basis, for the forthcoming financial year and two successive financial years. Details of the Authorised Limit can be found in Annex 1 of this part of the report.

The authorised limit reflects the additional borrowing requirement as part of the Housing Revenue Account (HRA) self-financing reforms. The Housing self-financing reforms also set an overall 'debt cap' for the HRA which in itself reflects an affordability level based on the Government's model of how much debt can be supported by the HRA after considering the forecast of income from rents and management and maintenance costs over a 30 year period. The HRA debt cap for Tendring was £60,285,000, but the Government announced the abolition of the HRA debt cap from 29 October 2018. The updated HRA Business Plan reported to Members in December 2025 and January 2026 as part of the HRA budget, reflected the financing of maturing loan debts via internal borrowing instead of external borrowing.

Due to a technical accounting change relating to assets the Council leases from 2024/25 and beyond, these assets are now recognised on the Council's balance sheet as right of use assets, matched by a corresponding lease liability. They count as a type of borrowing and will be written down each year. At the present time they are all within the General Fund, relatively short term with a maximum life of five years, so will be written down in line with the actual lease

repayment made. This means that the total spend of the Council counted against the General Fund balance will be unchanged, but the spend was moved to a different line in the Council's accounts and be split between Minimum Revenue Provision and interest.

The amount brought onto the balance sheet at 1 April 2024 was £0.235 million with an additional £0.087million added by 31 March 2025. As short-term lease payments were £0.131million in year this left an outstanding lease liability of £0.191million as at the 31 March 2025. The authorised limit and operational boundary already identified can cover this increase. The overall Capital Financing Requirement (CFR) of the Council for the General Fund has increased, but the loans CFR, which is referred to in the remainder of this Strategy, will not change. At present, the lease liability will continue to reduce until / if further qualifying assets are leased. As at 31 March 2026 liabilities are expected to be £0.073million.

3. Prudential and Treasury Indicators for 2025/26 to 2027/28

Prudential and Treasury Indicators are relevant for the purposes of setting an integrated Treasury Management Strategy. The latest revisions to the CIPFA Code of Practice on Treasury Management and to the CIPFA Prudential Code are effectively adopted via the approval of this Strategy which reflects the most up to date codes and guidance.

4. Current Portfolio Position

The Council's treasury position at the end of December 2025 comprised:

- *GF borrowing from The Public Works Loan Board (PWLB) of £0.114 million at fixed rates at an average rate of interest of 6.91%*
- *HRA borrowing from the PWLB of £28.044 million at fixed rates at an average rate of 3.59%*
- *Investments of cash flow surpluses, which include reserves and capital receipts, on a short-term basis (less than 1 year) totalling £106.365 million at an average rate of interest of 4.46%.*

5. Borrowing Requirement

No new, alternative or replacement external borrowing is currently reflected in the budget for the General Fund or for the HRA *(over and above any amounts already highlighted in the Business Plan considered by Cabinet).*

6. Economic Position

The Council's Treasury Advisors provide economic updates during the year with their latest update summarised as follows:

UK economy

The Bank of England Monetary Policy Committee (MPC) has continued to reduce rates in 2025/26 at a gradual pace reducing from 4.25% at the beginning of the year to the current level of 3.75% at the end of December 2025. Due to the 'stickiness' of CPI inflation, rate reductions have been at a slow measured rate as the bank balances this against slow economic growth indicators, with GDP being at 0.1% in quarter 4 2025 (October to December). Given the mixed picture the Council's external treasury advisors have suggested in their forecasts that interest rates will continue to reduce at a steady rate with the 'equilibrium' rate estimated to be at 3.25% in December 2026.

7. Interest Rates

The following table gives the Council's External Treasury Advisor's view on Bank Rate movements and their forecast for the PWLB new borrowing rate based on that view. The PWLB rates are based on the 'Certainty Rate' introduced by the Government for local authorities providing improved information and transparency on their locally determined long-term borrowing and associated capital spending plans. The Council's investment returns continued to be strong in 2025/26 but the average rate has declined in line with the reductions in the bank rate. Returns are expected to drop with lower rates forecast going into 2026/27, but at a gradual rate.

	Bank Rate	Average earnings rate projected by the Council's External Advisors			PWLB Borrowing Rate			
		3 month	6 month	12 month	5 yr.	10 yr.	25 yr.	50 yr.
Mar 2026	*3.75*	*3.80*	*3.80*	*3.90*	*4.60*	*5.20*	*5.80*	*5.60*
Jun 2026	*3.50*	*3.50*	*3.50*	*3.60*	*4.50*	*5.00*	*5.70*	*5.50*
Sep 2026	*3.50*	*3.50*	*3.50*	*3.60*	*4.30*	*4.90*	*5.60*	*5.40*
Dec 2026	*3.25*	*3.30*	*3.40*	*3.50*	*4.20*	*4.80*	*5.50*	*5.30*
Mar 2027	*3.25*	*3.30*	*3.30*	*3.40*	*4.10*	*4.80*	*5.50*	*5.30*
Jun 2027	*3.25*	*3.30*	*3.30*	*3.50*	*4.10*	*4.70*	*5.40*	*5.20*
Sep 2027	*3.25*	*3.30*	*3.30*	*3.50*	*4.10*	*4.70*	*5.30*	*5.10*
Dec 2027	*3.25*	*3.30*	*3.40*	*3.50*	*4.10*	*4.70*	*5.30*	*5.10*
Mar 2028	*3.25*	*3.30*	*3.40*	*3.50*	*4.10*	*4.70*	*5.30*	*5.10*
Jun 2028	*3.25*	*3.30*	*3.40*	*3.50*	*4.10*	*4.60*	*5.20*	*5.00*
Sep 2028	*3.25*	*3.30*	*3.40*	*3.60*	*4.10*	*4.60*	*5.20*	*5.10*
Dec 2028	*3.25*	*3.30*	*3.40*	*3.60*	*4.10*	*4.60*	*5.20*	*5.00*
Mar 2029	*3.25*	*3.30*	*3.40*	*3.60*	*4.10*	*4.70*	*5.20*	*5.00*

8. Borrowing Strategy

8.1 External v Internal Borrowing

The main Prudential Indicator relevant to capital investment is the Capital Financing Requirement (CFR). This is the total outstanding capital expenditure that has not yet been funded from either revenue or capital resources and is therefore a measure of the Council's underlying borrowing need after taking into account the provision included in the revenue budgets for the repayment of outstanding debt. From 2024/25 this figure also takes into account the assets and liabilities created by the impact of the new technical accounting arrangements for leasing.

The borrowing to finance the capital expenditure can be either from external sources or the Council can use its own internal resources.

The planned external debt compared to the CFR over 5 years is shown in the following table, the difference between the two being the amount the Council has funded from internal resources. This is also set out separately for the GF and the HRA. This excludes other long-term liabilities such as long-term creditors and pensions which form part of the separate Financial Strategy process of the Council from a prudential perspective.

Total External Debt

	Actual 2024/25	Revised 2025/26	Estimate 2026/27	Forecast 2027/28	*Forecast 2028/29*
	£000's	£000's	£000's	£000's	*£000's*
Debt as at 1 April	33,277	30,653	28,232	25,811	*24,722*
Estimated repayment of debt	(2,624)	(2,421)	(2,421)	(1,089)	(1,090)
Estimated debt as at 31 March	30,653	28,232	25,811	24,722	23,632
CFR as at 31 March	**37,167**	**35,649**	**34,088**	**32,843**	**31,605**
Difference - internally financed	6,514	7,417	8,277	8,121	7,973

General Fund External Debt

	Actual 2024/25	Revised 2025/26	Estimate 2026/27	Forecast 2027/28	*Forecast 2028/29*
	£000's	£000's	£000's	£000's	£000's
Debt as at 1 April	128	119	112	46	38
Estimated repayment of debt	(9)	(7)	(66)	(8)	(9)
Estimated debt as at 31 March	119	112	46	38	29
CFR as at 31 March	**4,632**	**4,528**	**4,381**	**4,217**	**4,060**
Forecast of internal financing	4,513	4,416	4,335	4,179	4,031

HRA External Debt

	Actual 2024/25	Revised 2025/26	Estimate 2026/27	Forecast 2027/28	*Forecast 2028/29*
	£000's	£000's	£000's	£000's	£000's
Debt as at 1 April	33,149	30,534	28,120	25,765	24,684
Estimated repayment of debt	(2,615)	(2,414)	(2,355)	(1,081)	(1,081)
Estimated debt as at 31 March	30,534	28,120	25,765	24,684	23,603
CFR as at 31 March	**32,535**	**31,121**	**29,707**	**28,626**	**27,545**
Forecast of internal financing	2,001	3,001	3,942	3,942	3,942

The Council is currently maintaining an under-borrowed position for the General Fund and the HRA. This means that the capital borrowing need (the Capital Financing Requirement), has not been fully funded with external loans, as cash supporting the Council's reserves, balances and cash flow has been used as a temporary measure. This strategy remains prudent, as PWLB rates are currently elevated above what the Council's treasury management advisors consider to be a baseline level.

HRA maturity loans of £1.000 million and £0.941 million end in 2025/26 and 2026/27 respectively, which are planned to be met from internal borrowing, although this postion will remain under review as part of the on-going development of the HRA Business Plan.

Based on the Government's current timescales, Local Government Reorganisation (LGR) would create a shadow authority from April 2027. Any decision to borrow from that date would need the authorisation of the new authority. Given the impact of LGR and the continued elevated level in interest rates throughout 2025/26 and looking ahead to 2026/27, it is felt prudent to maintain the current level of internal borrowing as set out within the tables above, although this will be kept under review in consultation with the Council's external advisors.

The use of internal resources is only a temporary solution as, in time, these reserves and capital receipts will be utilised to finance service initiatives and capital investment and at that point will not be available. This will need to be balanced against the replacement external borrowing which will be required at some point in the future which may attract higher rates of interest, so timing of such borrowing will need to consider forecasted rates of interest against the various types of borrowing structure to determine the most advantageous approach. Against this approach consideration may be required to borrow in advance of need, as set out in section 8.3 below, so as to reduce the need to borrow when interest rates may be higher.

8.2 Gross Debt v Investments

A comparison between the Council's gross and net borrowing position helps to assess the credit risk that would apply if the Council has surplus resources invested at a low interest rate which could be used to repay existing debt or to negate the need for additional new debt if at higher interest rates than that being achieved on the investments.

The table below sets out the Council's probable position taking account of both the individual GF and HRA debt figures.

Comparison of gross and net debt positions at year end	2024/25	2025/26	2026/27	2027/28	2028/29
	Actual	Probable out-turn	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000	£'000
General Fund external debt (gross)	119	112	46	38	29
HRA external debt (gross)	30,534	28,120	25,765	24,684	23,603
Investments	95,127	106,365	75,000	61,000	55,500
Net debt	**(64,474)**	**(78,133)**	**(49,189)**	**(36,278)**	**(31,868)**

The net debt positions show that the Council does not have underlying excess resources which could be used to repay long term debt – the surpluses and high current investment figures represent carry forwards and the current level of reserves / one-off budgets/ external grant funding relating to specific capital projects.

Recent investment balances have been significantly higher than initially forecast in recent years, with the investment balances in 2024/25 and 2025/26 higher due to Government Grant Funding. Based on the most up to date information, including project delivery timescales, the assumption that reserves will be fully spent has been changed to assume that legacy balances will be spent gradually over the period at roughly 25% per annum.

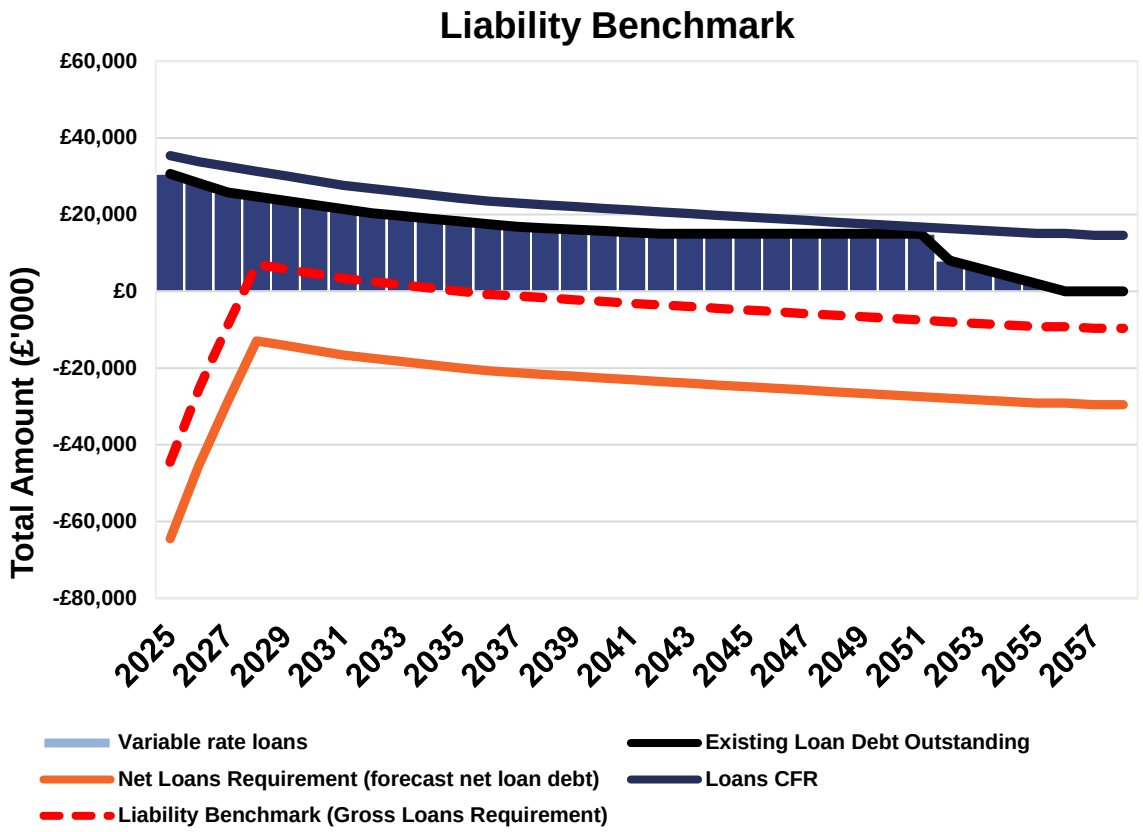
If opportunity arises, external debt will be repaid early, although this is difficult under current arrangements as set out in section 9. If borrowing is required then any requirement will be considered whilst balancing internal resources and forecasted interest rates within the parameters previously set out.

Against this background caution will be maintained within the 2026/27 treasury operations. Interest rates will be monitored and a pragmatic approach adopted to changing circumstances with appropriate action taken in accordance with the Council's Financial Procedure Rules.

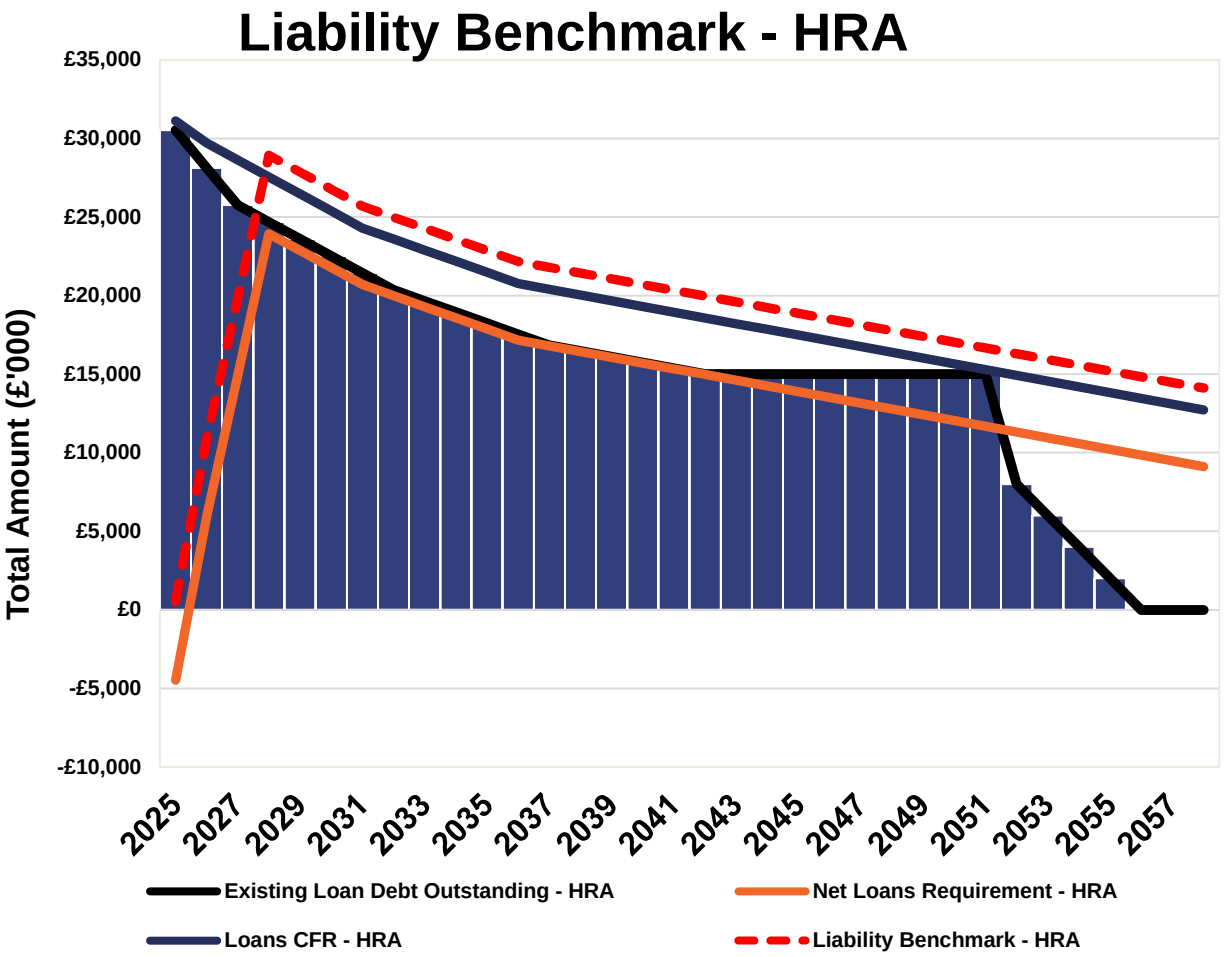
8.3 Liability Index

The tables in sections 8.1 and 8.2 are now required to be shown graphically for a minimum of 10 years and ideally to maturity of loan debt under the 2021 Prudential Code. The charts below show the overall position for the Council and then split over General Fund and HRA.

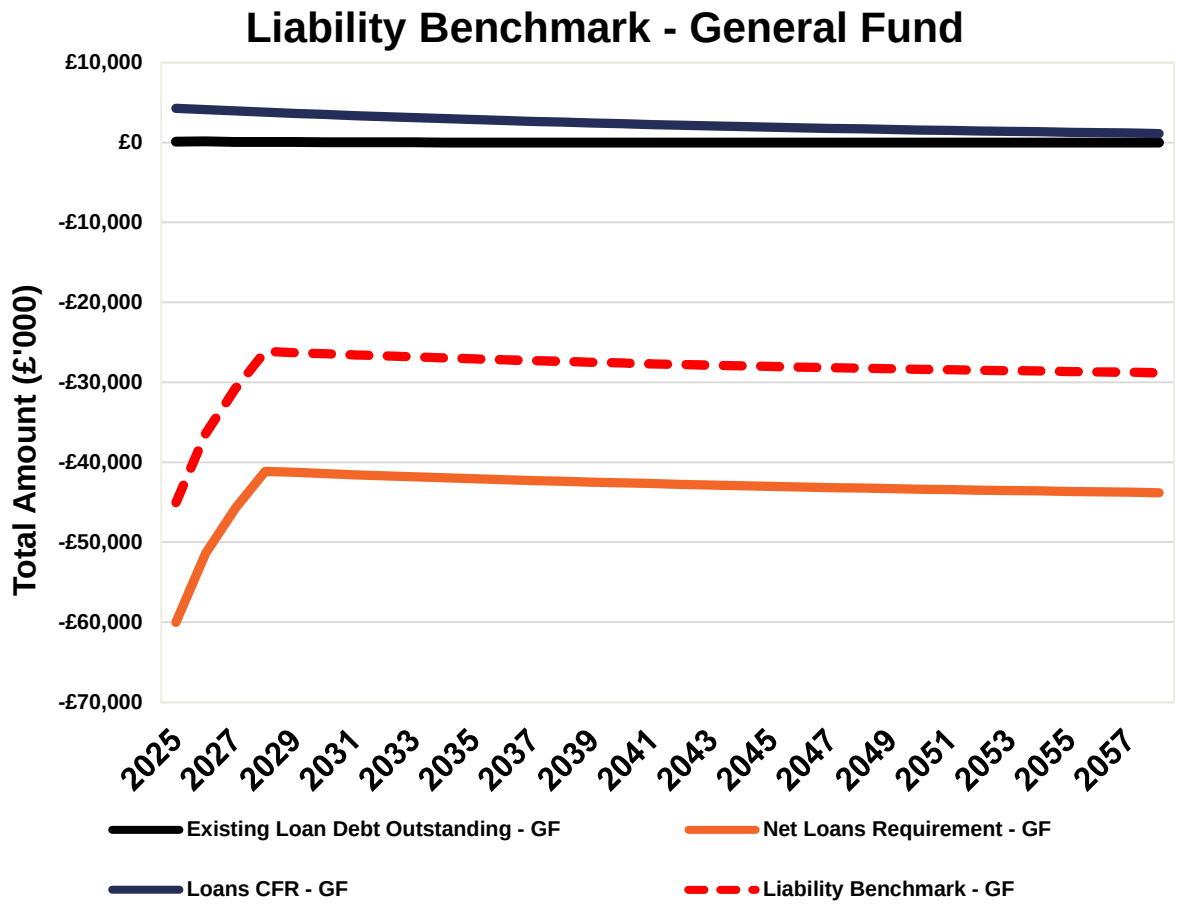
Total Capital Financing Requirement and External Borrowing



The gap between the top of the blue bars and the PWLB loans shows the Council is under-borrowed and well under the authorised limit and operational boundary.



The HRA chart shows also that the HRA is under-borrowed, at least until 2051, unless maturity loans that end over the next few years are re-financed.



The low level of General Fund PWLB debt is demonstrated by this chart. Again, this shows the level of General Fund under-borrowing as set out in the table in section 8.1 above.

8.3 Policy on borrowing in advance of need

The Council cannot borrow more than or in advance of its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be considered carefully to ensure value for money can be demonstrated and that the Council can ensure the security of such funds.

In determining whether borrowing will be undertaken in advance of need the Council will;

- ensure that there is a clear link between the capital programme and maturity profile of the existing debt portfolio which supports the need to take funding in advance of need;
- ensure the ongoing revenue liabilities created, and the implications for the future plans and budgets have been considered;
- evaluate the economic and market factors that might influence the manner and timing of any decision to borrow;
- consider the merits and demerits of alternative forms of funding;
- consider the alternative interest rate bases available, the most appropriate periods to fund and repayment profiles to use;
- consider the impact of borrowing in advance on temporarily (until required to finance capital expenditure) increasing investment cash balances and the consequent increase in exposure to counterparty risk, and other risks, and the level of such risks given the controls in place to minimise them.

9. Debt Rescheduling

Officers together with the treasury advisors examine on a regular basis the potential for undertaking early repayment of some external debt to the PWLB in order to maximise any potential financial advantages to the Council. However, the continuing and significant difference between new borrowing and repayment rates has meant that large premiums would be incurred by such action and cannot be justified on value for money grounds. This situation will be monitored in case the differential is narrowed by the PWLB or repayment rates change substantially.

As short-term borrowing rates will usually be cheaper than longer term rates there may be some potential for some residual opportunities to generate savings by switching from long term debt to short term debt. However, these savings will need to be considered in the light of the size of premiums incurred, their short-term nature, and the likely cost of refinancing these short term loans once they mature compared to the current rates of longer term debt in the existing portfolio.

Any opportunities for debt rescheduling will be considered if such action would be advantageous to the Council. The reasons for any rescheduling to take place will include:

- the generation of cash savings and/or discounted cash flow savings
- helping to fulfil the strategy outlined above
- enhance the balance of the portfolio

Consideration will also be given to identifying if there is any residual potential left for making savings by running down investment balances to repay debt prematurely as short-term rates on investments are likely to be lower than rates paid on current debt.

10. Investment Strategy

10.1 Investment Policy

The Council will have regard to the Government's Guidance on Local Government Investments, the latest CIPFA Treasury Management in Public Services Code of Practice and Guidance Notes (the Code) along with any relevant revisions or updates. The Council's investment priorities when investing are: -

- The security of capital and
- The liquidity of its investments.

The Council will also aim to achieve the optimum return on its investments commensurate with these main priorities. It is important to note that the borrowing of monies purely to invest or on-lend and make a return is unlawful.

Investment instruments identified for use in the financial year are listed in Annex 2 under the 'Specified' and 'Non-Specified' Investments categories. Counterparty limits will be as set through the Council's Treasury Management Practices – Schedules.

The majority of the Council's investments will be in Specified Investments although the Council has limited investments in Non-Specified investments.

During 2017/18 the Council purchased an investment property in Clacton, which is a Non-Specified investment (a commercial investment). The historic cost (including stamp duty) of this asset was £3.245 million and it is financed from revenue. The property was purchased with the aim of yielding rental income and with the potential for capital gains. This investment does not have a defined maturity date and it is an illiquid investment as the Council would need to sell the underlying asset to redeem the investment.

The property will be subject to annual revaluation to reflect current value under the requirements of the Accounting Code of Practice and this will be reported in the Statement of Accounts. *At 31 March 2025 the carrying value of the property was assessed by the Council's external Valuer at £2.212 million and at 30 September 2025 the carrying value was reduced to £2.135 million* The anticipated return on the property through rental income compared to the

historic cost is forecast to remain in line with the figures included in the report to Cabinet where the decision to purchase was made. Regardless of whether or not the property is being used for trading, the terms of the lease require payment of the rent until the end of the lease term.

The Council has adopted a Commercial Property Investment Policy which will be maintained as a separate document within the wider Capital and Treasury Strategy framework.

The Council does not intend to use derivative instruments as part of its treasury activities during the year.

10.2 Creditworthiness Policy and changes to the credit rating methodology

This Council uses credit ratings from all three rating agencies - Fitch, Moodys and Standard and Poors. In determining the appropriate credit rating the Council will use the lowest rating available to determine the investment limits both in terms of amount and period for a particular counterparty. This is in accordance with the recommendations of The Code. Counterparties rated by only one agency will not be used.

One of the credit rating agencies may be more aggressive in giving lower ratings than the other two agencies and this could result in the Council's counterparty list becoming too restrictive. If this happens the position will be discussed with the Council's treasury advisors and the Treasury Management Practices may need to be revised in accordance with delegated powers set out in the Council's Constitution.

- All credit ratings will be monitored daily**.** The Council is alerted to changes to ratings of all three agencies through its use of the Creditworthiness Service provided by the Council's external advisors which is downloaded from Link Asset Services website each morning and uploaded to the Treasury Management system.
- If a downgrade results in the counterparty/investment scheme no longer meeting the Council's minimum criteria, its further use for a new investment will be withdrawn immediately.

The Code also recommends that credit ratings are not the sole determinant of creditworthiness and therefore the Council will also use available market information from a variety of sources including

1. The Creditworthiness Service utilises movements in Credit Default Swaps against the iTraxx benchmark and other market data on a weekly basis. This creditworthiness service information will be used to confirm the assessed creditworthiness derived from the three ratings agencies. Where the information from this service indicates a lower standing for a particular counterparty than that derived via the credit ratings then the investment limits and length of investments applicable to that

counterparty will be adjusted accordingly or the counterparty removed from the list.
2. Market data and information,
3. Information on government support for banks and the credit ratings of that government support

10.3 Credit Limits

Through its approved Treasury Management Practices the Council will set maximum limits for the amount that can be invested with any counterparty. This limit will be determined by reference to the counterparty's credit rating and other criteria. In addition the amount invested in building societies and Certificates of Deposit is also limited to 50% of the total investment portfolio.

100% of the Council's investments may be in Treasury Bills or Gilts or invested with the Government's Debt Management Office (DMO). Although these sums are very secure the rate of interest is usually lower than the market rate, however Treasury Bills are a valuable tool in providing security and liquidity whilst the DMO offers a variety of investment terms and is a valuable source of investment should credit ratings of other financial institutions result in a reduction in the number of counterparties that meet the Council's minimum credit rating criteria. There is no limit on the amount that can be invested with other local authorities in total, although there is a limit of £6 million with each individual local authority.

10.4 Country Limits

The Council has determined that it will only use approved counterparties from the UK and additionally those countries with a minimum sovereign credit rating of AA or equivalent from the relevant rating agencies.

In a similar way that individual counterparties have a maximum investment limit, countries other than the UK will also have a limit.

10.5 Investment Strategy

The Council's funds are managed in-house and are mainly cash flow based but there is a core balance that could be available for investment for longer periods (2-3 years). Investments will be made with reference to the core balance and cash flow requirements and the outlook for short-term interest rates (i.e. rates for investments up to 12 months) and in respect of commercial property investment, this will be limited to the amount included in the Capital Programme.

The bank rate reduced from 4.50% in April 2025 to 3.75% in February 2026. The rate is forecast to gradually reduce over the course of 2026 to 3.25% by March 2027 (see Section 7). The Council will consider entering suitable low risk longer term deals before rates begin to fall without compromising the Council's priority of security of the investments.

For 2026/27 the Council has budgeted for investment returns based on the principles set out in this strategy including the forecast position on interest rates.

For its cash flow generated balances the Council will seek to utilise its business reserve accounts, Money Market Funds and short dated deposits (overnight to three months) in order to benefit from the compounding of interest. At the present time these short dated deposits are paying lower rates, but they provide a good level of liquidity to help manage the Council's cash flow.

10.6 Allocation of Investment returns between GF and HRA

As part of the introduction of HRA Self Financing a policy on the allocation of investments returns across the GF and HRA now forms part of the Annual Treasury Strategy.

The HRA holds balances and would benefit from cash flow advantages, which are amalgamated for the purposes of the overall investment activity of the Council. At the end of each year the transfer to the HRA of its share of the authority's overall investment returns will be agreed by the S151 Officer in consultation with the relevant officers based on the following principles:

- Equity
- Risk Sharing
- Minimising volatility between years

Returns from directly investing in commercial property will be allocated to the relevant fund where the Capital Programme / investment were made from.

10.7 End of year investment report

At the end of the financial year the Cabinet will receive a report on its investment activity.

GLOSSARY OF TERMS

Affordable borrowing limit – limit that the Council has to set under the CIPFA Prudential Code that shows how much the Council considers it can afford to borrow taking all its outgoings into consideration and how much income it considers it can generate.

Alternative financing arrangements – how the Council intends to finance its capital expenditure by other means besides borrowing.

Authorised limit – the amount the Council determines is the maximum that can be borrowed that is affordable and has been calculated in accordance with the legislation behind the CIPFA Prudential Code.

Borrowing requirement – how much the Council considers it needs to borrow to fund its spending plans.

CFR – Capital Financing Requirement – this calculation shows how much the Council needs to borrow or finance by some other measure to meet its planned capital spend.

Counterparty – the other party that participates when a loan or investment is placed.

CPI – Consumer Price Index – the Government's preferred measure of inflation, based on a set basket of goods and services. It excludes housing costs such as mortgage interest payments and council tax.

Credit arrangement – any quasi-loan, to ensure the legislation and Code pick up any unusual arrangements to provide funding other than from a straightforward loan

Credit default swap - A swap designed to transfer the credit exposure of fixed income products between parties. A credit default swap is also referred to as a credit derivative contract, where the purchaser of the swap makes payments up until the maturity date of a contract. Payments are made to the seller of the swap. In return, the seller agrees to pay off a third party debt if this party defaults on the loan. A CDS is considered insurance against non-payment. A buyer of a CDS might be speculating on the possibility that the third party will indeed default.

Credit limit – the maximum amount that can be lent to an individual organisation or group of organisations.

Credit rating – provided by one of the three credit rating agencies, an assessment of how likely the organisation is to repay any monies lent to it.

Creditworthiness - An assessment of the likelihood that a borrower will default on their debt obligations. It is based upon factors, such as their history of repayment and their credit score. Lending institutions also consider the availability of assets and extent of liabilities to determine the probability of default.

Debt cap (HRA) – the limit on the amount that can be borrowed by the HRA, set by central government.

Earmarked reserves – reserves that have been set aside for a specified purpose.

GDP – Gross Domestic Product – measures the output from the economy, if it rises then the economy is growing, if it falls the economy is in recession.

iTraxx - A group of international credit derivative indexes that are monitored by the International Index Company (IIC). The credit derivatives market that iTraxx provides allows parties to transfer the risk and return of underlying assets from one party to another without actually transferring the assets. iTraxx indexes cover credit derivatives markets in Europe, Asia and Australia.

Illiquid investment – An investment that cannot easily be sold or exchanged for cash without a substantial loss in value.

Non-specified investment – as defined in Annex 2.

Prudential indicators – a series of calculated figures specified in the CIPFA Prudential Code which are used to assess how affordable and realistic the Council's spending and financing plans are.

PWLB – Public Works Loans Board – central government lending to other public sector bodies, specifically local government.

PWLB Certainty Rate – The PWLB sets various rates for borrowing. From 1 November 2012 the Government reduced the interest rates on loans from PWLB to Councils who provide information as required on their planned long-term borrowing and capital spending by 0.20%. This reduced rate is called the Certainty Rate.

Replacement borrowing – borrowing taken out to replace other borrowing or other forms of credit that have been repaid.

RPI – Retail Price Index – another inflation index, this one includes the cost of housing.

Specified investments – as defined in Annex 2.

Proposed Prudential Indicators 2025/26 revised, 2026/27 and forecasts for 2027/28 to 2028/29

Indicators for Prudence

CAPITAL EXPENDITURE

This is an estimate of the amount of investment planned over the period. As can be seen, not all investment necessarily has an impact on the Council Tax, schemes funded by grants, capital receipts or external contributions mean that the effect on the Council Tax is greatly reduced.

Capital Expenditure - General Fund £000s	**2024/25 Actual**	**2025/26 Revised**	**2026/27 Estimate**	**2027/28 Forecast**	***2028/29* Forecast**

CAPITAL FINANCING REQUIREMENT

Each year, the Council finances the capital programme by a number of means, one of which could be borrowing. The Capital Financing Requirement (CFR) represents the cumulative amount of borrowing that has been incurred to pay for the Council's capital assets, less amounts that have been set aside for the repayment of debt over the years. The Council is only allowed to borrow long term to support its capital programme. It is not allowed to borrow long term to support its revenue budget.

CAPITAL FINANCING REQUIREMENT	**2024/25 Actual**	**2025/26 Revised**	**2026/27 Estimate**	**2027/28 Forecast**	**2028/29 Forecast**
	£000	**£000**	**£000**	**£000**	**£000**
General Fund	4,632	4,528	4,381	4,217	4,060
Housing Revenue Account	32,535	31,121	29,707	28,626	27,545
Total	**37,167**	**35,649**	**34,088**	**32,843**	**31,605**

GROSS DEBT AND THE CAPITAL FINANCING REQUIREMENT

This indicator compares the Capital Financing Requirement to the level of external debt and shows how much of the capital programme is financed from internal resources. The capital programme is partially funded in the short to medium term by internal resources when investment interest rates are significantly lower than long term borrowing rates. Net interest payments are therefore optimised.

PRUDENTIAL INDICATOR	2024/25 Actual	2025/26 Revised	2026/27 Estimate	2027/28 Forecast	2028/29 Forecast
	£000	£000	£000	£000	£000
Capital Financing Requirement	37,167	35,649	34,088	32,843	31,605
External debt	30,654	28,232	25,811	24,722	23,632
Internal borrowing	6,513	7,417	8,277	8,121	7,973

OPERATIONAL BOUNDARY AND AUTHORISED LIMIT

The Council must set an operational boundary and authorised limit for external debt. The operational boundary is based on the Council's estimate of most likely, i.e. prudent, but not worst case scenario for external debt. It reflects the decision on the amount of debt needed for the Capital Programme for the relevant year. It also takes account of other long term liabilities, which comprise finance leases, Private Finance Initiative and other liabilities that are not borrowing but form part of the Council's debt. The Council has none of these at present.

The authorised limit is the affordable borrowing limit determined in compliance with the Local Government Act 2003. It is the maximum amount of debt that the Council can legally owe. The authorised limit provides headroom over and above the operational boundary for unusual cash movements.

PRUDENTIAL INDICATOR	2024/25 Actual	2025/26 Revised	2026/27 Estimate	2027/28 Forecast	2028/29 Forecast
	£000	£000	£000	£000	£000
Operational boundary - borrowing	67,603	68,503	70,984	70,829	70,682
Authorised limit - borrowing	76,747	78,171	80,735	80,771	80,820

Indicators for Affordability

RATIO OF FINANCING COSTS TO NET REVENUE STREAM

This is an indicator of affordability and highlights the revenue implications of existing and proposed capital expenditure by identifying the proportion of the revenue budget required to meet financing costs.

ESTIMATE OF THE RATIO OF FINANCING COSTS TO NET REVENUE	2024/25 Actual	2025/26 Revised	2026/27 Estimate	2027/28 Forecast	2028/29 Forecast
	%	%	%	%	%
General Fund	2.13	1.06	1.04	0.78	0.63
Housing Revenue Account	43.91	38.19	40.87	37.92	36.87

RATIO OF COMMERCIAL AND SERVICE INVESTMENTS TO NET REVENUE STREAM

This indicator highlights how much of the Council's net revenue spend is financed by income from commercial and service investments. The Council has one commercial investment and no service investments

ESTIMATE OF THE RATIO OF COMMERCIAL INVESTMENTS TO NET REVENUE	2024/25 Actual	2025/26 Revised	2026/27 Estimate	2027/28 Forecast	2028/29 Forecast
	%	%	%	%	%
General Fund	-1.43	-1.28	-0.94	-0.43	-0.43

INTEREST RATE EXPOSURE

Tendring District Council currently has all its borrowings at fixed rate and usually has a mixture of fixed and variable rate investments. This indicator is set to control the Council's exposure to interest rate risk.

PRUDENTIAL INDICATOR	2024/25 Actual	2025/26 Revised	2026/27 Estimate	2027/28 Forecast	2028/29 Forecast
	£000	£000	£000	£000	£000
Upper limit for Fixed Interest Rates on debt	37,167	35,649	34,088	32,843	31,605
Upper limit for Variable Interest Rates on debt (based on 30% of the fixed rate limit)	11,150	10,695	10,226	9,853	9,841

TOTAL PRINCIPAL SUMS INVESTED FOR PERIODS LONGER THAN 364 DAYS (excluding property)

Interest rate risk is also affected by the proportion of the investments invested at fixed rates for longer periods, especially in a period when rates are expected to rise.

PRUDENTIAL INDICATOR	2024/25 Actual	2025/26 Revised	2026/27 Estimate	2027/28 Forecast	2028/29 Forecast
	£000	£000	£000	£000	£000
Limits on the total principal sum invested to final maturities longer than 364 days	3,500	3,500	3,500	3,500	3,500

MATURITY STRUCTURE OF FIXED RATE BORROWING

This indicator is set to control the Council's exposure to refinancing risk. The limits are set for each age range to ensure that the Council avoids too many fixed rate loans being matured at one time and spreads the maturity across several periods. The percentages for the upper and lower limits do not add up to 100% as they do not represent an actual allocation.

PRUDENTIAL INDICATOR	Upper limit	Lower limit	Estimated outstanding debt maturity % at			
	%	%	31/03/2026	31/03/2027	31/03/2028	31/03/2029
Under 12 months	25	0	8.58%	4.22%	4.41%	4.62%
12 months and within 24 months	30	0	3.86%	4.22%	4.41%	4.62%
24 months and within 5 years	60	0	11.59%	12.67%	11.67%	10.59%
5 years and within 10 years	75	0	13.86%	13.86%	12.91%	12.06%
10 years and above	95	25				
10-20 years			8.98%	8.98%	5.92%	4.65%
20-30 years			53.13%	58.12%	60.89%	63.47%
>30 years			0.00%	0.00%	0.00%	0.00%

TREASURY INDICATOR - EXPOSURE TO CREDIT RISK

The Council has adopted a voluntary measure of its exposure to credit risk by monitoring the value-weighted average score of its investment portfolio. This is calculated by applying a score to each investment (AAA=1, AA+=2, etc.) using the rating applicable when it is taken out and taking the arithmetic average, weighted by the size of each investment. Investments in government instruments such as DMO, treasury bills and in local authorities are scored as 1.

TREASURY INDICATOR	2024/25 Actual	2025/26 to 31/12	2026/27 Upper limit
Average credit score for investments	1.04	1.02	2.00

SPECIFIED AND NON-SPECIFIED INVESTMENTS

This schedule sets out the specified and Non-Specified investments the Council may use in 2026/27.

Investments may be in the form of direct deposits, Certificates of Deposits (CDs), property (including property funds) or the purchase of financial instruments such as Treasury Bills, Bonds and Gilts.

SPECIFIED INVESTMENTS:
An investment is a Specified Investment if all of the following apply

1. The investment is denominated in sterling and any payments or repayments in respect of the investment are payable only in sterling
2. The investment is not a long-term investment which is one that is due to be repaid within 12 months of the date on which the investment is made or one which the local authority may require to be repaid within that period.
3. The investment is not defined as capital expenditure by regulations
4. The investment is made with a body or in an investment scheme of high credit quality or the investment is made with the following public sector bodies.
    a. UK Government
    b. Local authority
    c. Parish council or community council

Where an investment is being made with a UK nationalised or part nationalised bank this will be treated for the purposes of classification as a Specified or Non-specified investment as being invested with the UK Government.

High credit quality
For a counterparty to meet the high credit quality criteria for specified investments, that counterparty must meet as a minimum the ratings of the three credit rating agencies listed below and not be the subject of any adverse indications from the following sources.

- Credit Default Swap index
- The quality financial press
- Market data
- Information on government support for banks and
- The credit ratings of that government support

Ratings	**Fitch**	**Moodys**	**Standard & Poors**
Short term	F1	P-1	A-1
Long term	A-	A3	A

NON-SPECIFIED INVESTMENTS

A maximum of £3.5m may be held, in aggregate, in Non-Specified Investments

The only non-Specified investments that the Council will use in 2026/27 are investments for periods of longer than 12 months with any institution or investment instrument that would have been classed as a Specified Investment if the investment had been for less than 12 months or property. The Council currently holds an investment property in Clacton. The historic cost of this property (including stamp duty) is £3.245 million. *The most up to date valuation received by the Council's external valuer is £2.210 million.* The purchase of the property was financed from revenue resources.

A.2 APPENDIX B

CABINET

20 MARCH 2026

REPORT OF THE PORTFOLIO HOLDER FOR CORPORATE FINANCE & GOVERNANCE

A.9 ANNUAL CAPITAL AND TREASURY STRATEGY FOR 2026/27 (INCLUDING PRUDENTIAL AND TREASURY INDICATORS)

PART 1 – KEY INFORMATION

PURPOSE OF THE REPORT
To agree the Annual Capital and Treasury Strategy for 2026/27 (including Prudential and Treasury Indicators) for submission to Council on 31 March 2026.

EXECUTIVE SUMMARY

- Alongside the wider financial strategy and forecast, the Capital and Treasury Strategy continues to support the on-going financial strength and stability of the Council and through its adoption in 2026/27 will ensure that investment and treasury management activities remain effectively managed.

- In terms of the general context to the above, the Local Government Act 2003 and supporting regulations require the Council to set out its treasury strategy for borrowing, and to prepare an Annual Investment Strategy (as required by Investment Guidance subsequent to the Act) that sets out the Council's policies for managing its investments and for giving priority to the security and liquidity of those investments, "having regard" to the Chartered Institute of Public Finance and Accountancy's (CIPFA) Prudential Code and the CIPFA Treasury Management Code of Practice. Revised editions of both documents came into force from 2023/24.

- The Capital Strategy continues to be combined with the Treasury Strategy into one document, which is required to be updated / approved annually.

- The Annual Capital and Treasury Strategy for 2026/27, including Prudential and Treasury Indicators, was approved by the Finance and Governance Portfolio Holder on 2 March 2026 for consultation with the Resources and Services Overview and Scrutiny Committee.

- The Resources and Services Overview and Scrutiny Committee considered the Strategy at their meeting on 10 March 2026, and their supportive comments are set out in main body of this report.

- The proposed Annual Capital and Treasury Strategy for 2026/27 is set out in **Appendix A.** *(For completeness, **Appendix A** also includes the report considered by the Finance and Governance Portfolio Holder that was considered when approving the Strategy on 2 March 2026 for consultation with the Resources and Services Overview and Scrutiny Committee)*.

- The Capital Strategy element of the combined document covers the various elements

A.2 APPENDIX B

surrounding capital investment decisions and the key criteria that investment decisions should be considered against.

- The Treasury Strategy element of the combined document covers the various elements that satisfy the requirements of the various codes that govern the borrowing and investment activities of the Council and has been prepared in the light of advice received from the Council's Treasury advisors and reflects the latest codes and guidance**.**

- Prudential and Treasury indicators are included as an Annexe to the combined strategy and are therefore included within **Appendix A.**

- Under the Prudential Code the Council has freedom over capital expenditure as long as it is prudent, affordable and sustainable. The Prudential Indicators either measure the expected activity or introduce limits upon the activity and reflect the underlying capital appraisal systems and enable the Council to demonstrate that it is complying with the requirements of the Prudential Code.

- The Council's investments will continue to be undertaken in accordance with its Treasury Management Practices.

- In following on from comments last year, the Strategy now acknowledges potential obligations that will be placed on the Council due to the emerging legislation around Local Government Reorganisation (LGR).

RECOMMENDATION(S)

That Cabinet:

a) notes the contents of the report previously considered by the Portfolio Holder for Corporate Finance and Governance in making his previous executive decision on this matter (as attached) and the supportive comments from the Resources and Services Overview and Scrutiny Committee; and

b) subject to a) above, agrees that the Annual Capital and Treasury Strategy for 2026/27 (including Prudential and Treasury Indicators), as attached within Appendix A, be submitted to Council for its formal approval.

REASON(S) FOR THE RECOMMENDATION(S)

To support the process of ensuring that a Capital and Treasury Strategy for 2026/27 can be considered / approved by Full Council before the start of the 2026/27 financial year.

ALTERNATIVE OPTIONS CONSIDERED

Not applicable given the requirements set out elsewhere in this report.

PART 2 – IMPLICATIONS OF THE DECISION

A.2 APPENDIX B

DELIVERING PRIORITIES
The adoption of the Capital and Annual Treasury Strategy for 2026/27 will ensure that the Council's Investment and Treasury Management activities are carried out and managed in accordance with best practice, thereby safeguarding money held by the Council and making an appropriate contribution to the Council's overall financial position and priorities.
OUTCOME OF CONSULTATION AND ENGAGEMENT
The Strategy was presented to the Resources and Services Overview and Scrutiny Committee at its meeting on 10 March 2026. Following its consideration, the Committee resolved:- *"That the Committee notes the Annual Capital and Treasury Strategy 2026/27 and endorses its approval by Cabinet."*
LEGAL REQUIREMENTS (including legislation & constitutional powers)

Is the recommendation a Key Decision (see the criteria stated here)	**Yes**	**If Yes, indicate which by which criteria it is a Key Decision**	X **Significant effect on two or more wards** X **Involves £100,000 expenditure/income** ☐ **Is otherwise significant for the service budget**
		And when was the proposed decision published in the Notice of forthcoming decisions for the Council (must be 28 days at the latest prior to the meeting date)	This item has been included within the Forward Plan for a period in excess of 28 days.

The Local Authorities (Capital Financing and Accounting) (England) Regulations 2003 include the requirement for local authorities to have regard to CIPFA guidance. By adopting / approving an Annual Treasury Strategy and a Capital Strategy based on the requirements of the relevant and updated codes, the Council is complying with the regulations.

Section 78 of the Levelling Up and Regeneration Act 2023 inserted sections 12A to 12D into the Local Government Act 2003, which came into force from 31 January 2024. These new sections cover capital finance risk management and include risk mitigation directions, risk thresholds, restrictions of power to give risk-mitigation directions and a duty to cooperate with independent expert. These changes essentially seek to respond to the financial crisis that some local Authorities have found themselves in over previous years. A summary of each section is set out in the attached report that was considered by the Portfolio Holder for Finance and Governance as part of their associated decision on 2 March 2026.

As set out in para 4.3 Part 3.37 of the Constitution, the Portfolio Holder for Finance and Governance has delegated authority to agree the Capital and Treasury Strategy for consultation with the Resources and Services Overview and Scrutiny Committee.

As highlighted in earlier financial / budget reports, a number of obligations will be placed on the

A.2 APPENDIX B

Council and its Statutory Officers as part of the Government's on-going Local Government Reorganisation reforms for Greater Essex. These are anticipated to be based on emerging legislation such as the Structural Changes Order (SCO) and existing legislation such as S24 of the Local Government and Public Involvement in Health Act 2007, which will include new statutory duties on existing authorities being abolished by the orders, which will include the control of disposals, contracts and reserves. In practice, they are complementary and cover the abolition of the existing local government areas, wind up and dissolve the existing county and district councils, transfer district and county council functions, establish one or more new local government areas and unitary authority(ies) and providing for the names of each. There will be a number of related key financial considerations that will remain under review during the period of the proposed two-year plan. As LGR for Greater Essex proceeds further, information on these requirements for Tendring District Council will be included within future reports as necessary.

Yes	**The Monitoring Officer confirms they have been made aware of the above and any additional comments from them are below:**

The capital and treasury proposals of local authorities which for Tendring District Council are encapsulated within the Annual Capital and Treasury Strategy and Treasury Management Practices, are of significant importance. These documents set out the governance framework in which capital spend, borrowing and investments are made. Clear roles and responsibilities are set out in the strategy, and it is important to highlight that there is no delegation to any single officer, such as the Section 151 Officer to undertake any investments outside of the more 'traditional' money market activities such as lending to other Local Authorities and depositing money in banks and building societies. In terms of these latter investments, the parameters in which the Section 151 Officer can make such investments are set out within the documents referred to above and include a number of criteria such as overall lending / borrowing limits and minimal credit ratings etc.

Treasury performance is reported during the year by way of an outturn report for the preceding year along with quarterly updates during the year, which includes a more detailed half yearly update in September / October.

Any decision to invest in 'non-traditional' money market activities or to undertake any borrowing activities would be subject to separate reports to Cabinet / Council as necessary, which would set out various issues such as risks and resource implications including the level of skill and expertise to manage any associated investments.

The Best Value Duty relates to the statutory requirement for local authorities and other public bodies defined as best value authorities in Part 1 of the Local Government Act 1999 to "make arrangements to secure continuous improvement in the way in which functions are exercised, having regard to a combination of economy, efficiency and effectiveness". Best Value authorities must demonstrate good governance, including a positive organisational culture, across all their functions and effective risk management. Failure to deliver best value can occur within any aspect of governance, delivery of services or financial management. Unlawful or excessively risky borrowing and investment practices with no adequate risk management strategy in place for financial losses is an indicator of potential failure under the Use of Resources theme for a Best Value authority, within the Government's statutory guidance on Best Value Standards and Intervention, issued in May 2024.

A.2 APPENDIX B

Members need to be satisfied with the governance arrangements set out within the strategy, which can be supported via training etc. as necessary.

FINANCE AND OTHER RESOURCE IMPLICATIONS

Treasury and Capital Management Strategies and procedures will ensure that the Council's investments and borrowing will be undertaken in such a way as to minimise the Council's exposure to risk. At the same time, they will seek to maximise income from investments and minimise the costs of borrowing within the Council's accepted level of risk.

As highlighted within the strategy, various elements supporting good decision making would need to be set out as part of separate / individual spending and investment decisions where necessary, which would include the various financial and non-financial elements associated with it.

As set out within earlier financial performance / budget reports, the Council has effectively adopted a two-year plan to its financial forecast that in turn reflects the current timetable for LGR, with a successor Unitary Council potentially being established from as early as 1 April 2026. The Annual Capital and Treasury Strategy will continue to complement / support the Council's wider financial position / plans albeit across a two year 'window', that also recognises obligations to successor Unitary Councils. This latter point is particularly relevant in terms of any major capital investments plans during the interim period.

YES	**The Section 151 Officer confirms they have been made aware of the above and any additional comments from them are below:**

The Section 151 Officer is the author of this report.

USE OF RESOURCES AND VALUE FOR MONEY

The following are submitted in respect of the indicated use of resources and value for money indicators:

A) Financial sustainability: how the body plans and manages its resources to ensure it can continue to deliver its services;	This is addressed in the body of the report and appendices where relevant.
B) Governance: how the body ensures that it makes informed decisions and properly manages its risks, including; and	
C) Improving economy, efficiency and effectiveness: how the body uses information about its costs and performance to improve the way it manages and delivers its services.	

MILESTONES AND DELIVERY

This has been highlighted elsewhere within this report.

ASSOCIATED RISKS AND MITIGATION

The placing of investments involves a number of risks. These risks and how the Council will manage them are set out in the Council's Treasury Management Practices.

As highlighted elsewhere within the attached, investments are undertaken within an overall risk-averse approach, which is reflected in Treasury Management Practices. With this in mind, a

significant level of investment is undertaken with other Local Authorities and with the Government.

As with recent examples, money lent to other Local Authorities is not at risk of not being repaid, as ultimately the Government would take the necessary steps to ensure liabilities are met as part of any intervention. The risk of lending money to another Local Authority is therefore not the same as lending money to a commercial / private organisation, which is one of the reasons why Councils lending to other Councils is common practice nationally.

When undertaking lending to other Local Authorities, the Council continues to apply as much 'market intelligence' as possible, which would include any adverse reporting in the markets, the media, the risk of S114 reports being issued along with information from our own External Treasury Advisors. The new measures and metrics that have been introduced via the Levelling Up and Regeneration Act 2023 as set out earlier along with any other associated indicators will be additional 'tools' that can be used to complement information already applied in managing the Council's day to day treasury management activities. This can be considered as part of developing the strategy in future years.

As reported previously, the investment property in Clacton is performing satisfactorily against the financial target set out within the original decision to purchase the property, with budgeted investment income continuing to be achieved each year. It is important to highlight that the rental payments can continue to be seen as paying back the original investment made in purchasing the property. The forecast that has been considered by members as part of developing the budgets for 2026/27, continues to prudently include an adjustment to reflect the potential for rental income to reduce once the current lease held by the existing tenant expires.

Within the above context, the overall performance of the investment therefore needs to take into account such considerations over the life of the Council's ownership of the property rather any shorter-term position in isolation. It is also important to highlight that the latest valuation of the property set out in **Appendix A,** is an 'accounting' valuation and not a direct value that would be achieved on the market if it was sold.

It is also worth highlighting that the Council's Commercial Property Investment Policy is underpinned by robust risk management actions, which will respond to any changes to the situation. With the latter point in mind and as set out within the Commercial Property Investment Policy, the Council's wider treasury management activities are designed to ensure that the Council is not faced with a position of having to sell the property for cash flow purposes. This in turn ensures that the Council remains in control of when the property is ever exposed to the market rather than potentially having to sell the property during a period where there may be a downturn in commercial property prices.

EQUALITY IMPLICATIONS

There are no direct implications.

SOCIAL VALUE CONSIDERATIONS

There are no direct implications.

IMPLICATIONS RELATED TO DEVOLUTION AND / OR LOCAL GOVERNMENT REORGANISATION

As set out earlier in the year and elsewhere within this report, the Council's financial position

needs to be considered within an interim period before new / successor Unitary Councils are established from the current expected date of 1 April 2028. Potential implications and impacts have been highlighted elsewhere within this report where necessary and will continue to be reviewed on an on-going basis over the forecast period. Statutory Officers continue to review guidance published by the Government for those Councils on the Devolution / LGR Priority Programme. Where this specifically relates to governance matters impacting decision making, Government's expectations and the Council's responsibilities will be highlighted within advice and reports.
IMPLICATIONS FOR THE COUNCIL'S AIM TO BE NET ZERO BY 2050
There are no direct implications.
OTHER RELEVANT CONSIDERATIONS OR IMPLICATIONS
Consideration has been given to the implications of the proposed decision in respect of the following and any significant issues are set out below.

Crime and Disorder	Please see comments above
Health Inequalities	
Area or Ward affected	

PART 3 – SUPPORTING INFORMATION

BACKGROUND AND CURRENT POSITION
The Annual Capital and Treasury Strategy for 2026/27 is set out in **Appendix A** and is based on the most up to date Treasury Management Code of Practice and the revised Prudential Code, both of which were published by CIPFA in December 2021. Also attached is the covering report considered by the Portfolio Holder for Finance and Governance as part of their associated decision on 2 March 2026. In terms of the Strategy for 2026/27, there have been no changes to the relevant codes and/or accounting practices, so there is only a limited number of amendments required as part of this year's review, which are shaded in grey and are in italic font within the relevant appendix. The Council continues to maintain a low-risk appetite approach to its treasury activities. However, set against this context, officers will continue to explore opportunities to maximise investment returns in 2026/27.
PREVIOUS RELEVANT DECISIONS
The previous Capital and Treasury Strategy for 2025/26 was agreed by Full Council at its meeting on 20 May 2025. Treasury Management Performance 2025/26 was reported to Cabinet at its 26 September 2025 meeting. A mid-year Treasury Performance review was presented to Cabinet at its 14 November 2025 meeting. On 2 March 2026, the Portfolio Holder for Finance and Governance agreed the Annual

A.2 APPENDIX B

Capital and Treasury Strategy 2026/27 for consultation with the Resources and Overview Scrutiny Committee on 10 March 2026 (attached).
